CHAIRMAN'S LETTER

Dear Panoramic Shareholder

On behalf of the Directors of IGO, I am pleased to present you with this Bidder's Statement which details IGO's offer (**Offer**) to acquire all of your Shares in Panoramic Resources Limited (**Panoramic**).

4 NOVEMBER 2019

Under the Offer you will receive 1 IGO Share for every 13 Panoramic Shares you own. Based on the 1 month volume weighted average price of IGO Shares up to and including 1 November 2019, this Offer values each Panoramic Share at \$0.476.

IGO presents this Offer directly to you as a shareholder of Panoramic following a number of unsuccessful attempts to engage with the Panoramic Board. The Offer represents, in IGO's view, the best opportunity available to Panoramic's shareholders to crystallise meaningful value from, and de-risk, their investment in Panoramic in the foreseeable future.

For the reasons set out in this Bidder's Statement, I strongly encourage all Panoramic Shareholders to **ACCEPT the Offer**.

REASONS TO ACCEPT THE OFFER

- 1. The implied Offer value represents a very attractive and significant premium of:**
 - **42%** to the closing price of Panoramic Shares on 1 November 2019, being the last trading day before the Announcement Date;
 - **51%** to the 1-month VWAP of Panoramic Shares up to and including 1 November 2019; and
 - **52%** to the 2-month VWAP of Panoramic Shares up to and including 1 November 2019.

IGO notes that if you participated in Panoramic's most recent equity raising in 2019 and **ACCEPT the Offer**, you stand to realise a very attractive return on the shares you acquired in that equity raising.
- 2. De-risks your investment in Panoramic within a stronger, larger, more diversified and liquid vehicle.**
- 3. Enhanced operational and exploration value through IGO's technical, financial and operating capability.**
- 4. Retain and enhance exposure to attractive nickel market dynamics.**
- 5. Benefit from IGO's attractive shareholder returns policy.**
- 6. Potential access to CGT scrip for scrip rollover relief.**

ABOUT IGO

If you **ACCEPT the Offer**, you will have the opportunity to exchange your Panoramic Shares for shares in a leading ASX-listed mining and exploration company with a proven track record of project delivery, operation and optimisation and a strategic focus on metals critical to clean energy, primarily nickel and copper. IGO's flagship nickel-copper-cobalt operation, Nova, is aligned with this strategy and was developed on time and on budget. Nova is the lowest cost nickel mine in Australia and one of the lowest cost independent nickel mines in the world.

The acquisition of Savannah would be a complementary addition to IGO's growth strategy and portfolio.

IGO also has an interest in the Tropicana gold mine which delivers strong free cash flow and diversification to the IGO portfolio.

IGO's development and operating experience, combined with its specialist exploration experience in nickel sulphide systems, means IGO is well equipped to realise value from Savannah and Panoramic's exploration tenure, and deliver this value to Panoramic's Shareholders through the Offer and future cash returns, including dividends. IGO notes that, as at the date of this Bidder's Statement, it has a relevant interest in 24,920,325 Panoramic Shares, representing approximately 3.8% of Panoramic Shares on issue.

ACCEPTING THE OFFER

Panoramic Shareholders who accept the Offer will generally be paid on the earlier of the date that is one month after the Offer becomes, or is declared, unconditional or 21 days after the end of the Offer Period.

The Offer is subject to the conditions presented in section 12.8. Included are a number of conditions that are necessary to confirm the current status of the Savannah operations given Panoramic's performance since it commenced the restart of Savannah mining operations in December 2018. IGO's strong preference remains to engage with the Panoramic Board to facilitate detailed due diligence and, subject to that due diligence, proceed with a transaction recommended by the Panoramic Board. However, should the Panoramic Board continue to not engage with IGO, IGO is prepared to proceed with the Offer subject to the required confirmations being provided via satisfaction of the due diligence conditions contemplated in this Bidder's Statement.

Detailed information in respect of the Offer is set out in this Bidder's Statement. You should read this Bidder's Statement in its entirety. The Offer is open for acceptance until 7.00 pm (Sydney time) on , unless extended in accordance with the Corporations Act. To accept the Offer you should follow the instructions detailed on the Acceptance Form.

I encourage you to accept the Offer.

If you have any questions in relation to the Offer, please contact the Offer Information Line on 1300 069 335 (from within Australia) or +61 3 9415 4019 (from outside Australia) between 8.30am and 5.00pm (Sydney time), Monday to Friday.

Yours sincerely,

PETER BILBE

CHAIRMAN

INDEPENDENCE GROUP NL

OVERVIEW

WHY YOU SHOULD ACCEPT THE OFFER

1. Very attractive and significant premium of 42% to the last closing price of Panoramic Shares before the date of this Bidder's Statement and 51% to the 1 month VWAP
2. De-risks your investment in Panoramic within a stronger, larger, more diversified and liquid vehicle
3. Enhanced operational and exploration value through IGO's technical, financial and operating capability
4. Retain and enhance exposure to attractive nickel market dynamics
5. Benefit from IGO's attractive shareholder returns policy
6. Potential access to CGT scrip for scrip rollover relief

1.

Very attractive and significant premium of 42% to last close and 51% to the 1 month VWAP

The implied Offer value of \$0.476¹ represents a very attractive and significant premium of:

- **42%** to the closing price of Panoramic Shares on 1 November 2019, being the last trading day before 4 November 2019 (Announcement Date);
- **51%** to the 1-month VWAP of Panoramic Shares up to and including 1 November 2019;² and
- **52%** to the 2-month VWAP of Panoramic Shares up to and including 1 November 2019.²

Panoramic Shares have not traded at the implied Offer value of \$0.476 per Panoramic Share since 1 March 2019, prior to Panoramic's first equity raising of this year announced on 11 March 2019. IGO's Offer represents, in IGO's view, a rare opportunity for Panoramic Shareholders to realise a very attractive and significant premium for their Panoramic Shares.

Panoramic Shareholders who acquired shares at \$0.28 per share through the pro-rata renounceable entitlement offer announced on 5 September 2019 will, if they ACCEPT the Offer, realise a premium of 70%³ on those shares.

1. Based on the 1 month VWAP of IGO Shares up to and including 1 November 2019, being the last trading day before the Announcement Date.
 2. Calculated up to and including 1 November 2019, based on the cumulative value traded on ASX and CHI-X divided by cumulative volume traded on ASX and CHI-X.
 3. Assumes an implied offer price of \$0.476 per Panoramic Share.

2.

De-risks your investment in Panoramic within a stronger, larger, more diversified and liquid vehicle

Your investment in Panoramic, a single asset company with debt attempting to restart a remote underground mine and processing plant, carries significant risk. These risks would be materially removed or mitigated through a combination with IGO, as summarised in the table on the following page.

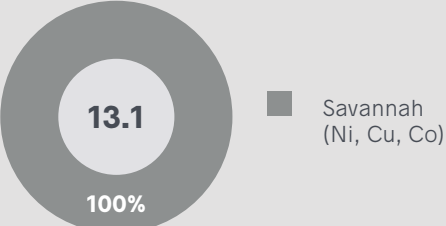

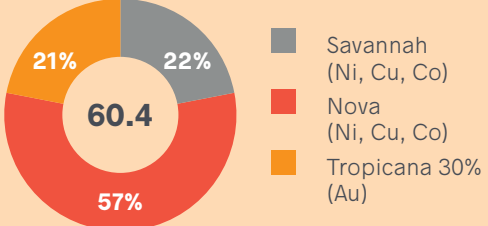

By **ACCEPTING IGO's Offer**, you would materially de-risk your investment in Panoramic through both receipt of up-front value for Your Shares and through being part of the combined group; a stronger, larger, more diversified and more liquid vehicle.

Due to the risk factors currently faced by Panoramic, it is possible that, without IGO's Offer, the Panoramic share price may never reach the value implied from IGO's Offer or it may fall below the pre-Offer Panoramic Share price in future.

4. Based on a historically low coefficient of determination (also referred to as "R Squared") between the nickel and gold price resulting in a "natural hedge" in relation to exposure to commodity price volatility (analysed over a 20-year historical period).
5. Mid-point of FY20 production guidance per PAN ASX announcement 3 September 2019 ("Savannah Operations Update & Further Amendments to Project Loan Facility") and IGO 2019 Annual Report converted to nickel equivalent tonnes (NiEq) using the following spot prices as at 1 November 2019: US\$16,835/t Ni (IRESS), US\$5,825/t Cu (IRESS), US\$35,500/t Co (FactSet) and US\$1,510/oz Au (IRESS). Figure for merged group is on a pro forma basis, prepared on the assumption that Panoramic becomes a wholly-owned subsidiary of IGO.
6. PAN ASX announcement 30 September 2019 ("Change in substantial holding from ZER").
7. Average daily trading value of Panoramic Shares over the last 12 months ending 1 November 2019.
8. Average daily trading value of IGO Shares over the last 12 months ending 1 November 2019.

3.

Enhanced operational and exploration value through IGO's technical, financial and operating capability

IGO has extensive underground nickel mining experience from its 16 year operatorship of Long⁹ and successful development and operation of Nova, which will be leveraged to maximise value from Savannah.

IGO has a team of over 90 technical staff dedicated to exploration and, importantly for maximising the value of Savannah and its surrounding tenure, IGO's exploration team includes internationally recognised nickel sulphide experts. This knowledge and experience is, in IGO's opinion, likely to bring new energy and focus to understanding and maximising the value of Panoramic's tenements around Savannah to your benefit as a future IGO shareholder.

As demonstrated below, Panoramic has been unable to consistently grow investment in organic growth initiatives. By comparison, IGO has consistently deployed capital into exploration and growth and, as demonstrated by an enlarged FY20 budget, continues to do so.

By **ACCEPTING IGO's Offer**, you will have a greater opportunity to realise the full value potential from Savannah and its surrounding geology through IGO's technical, financial and operating capability than on a standalone Panoramic basis.

Exploration Expenditure (\$M)¹⁰

Source: IGO ASX announcements and Panoramic ASX announcements ¹¹

In addition, IGO's net cash position of \$264 million at 30 September 2019 and low gross gearing of 2%¹² place it in a very strong position to easily fund capital and growth at Savannah without the overhang and risk associated with the Savannah Financing Agreement.

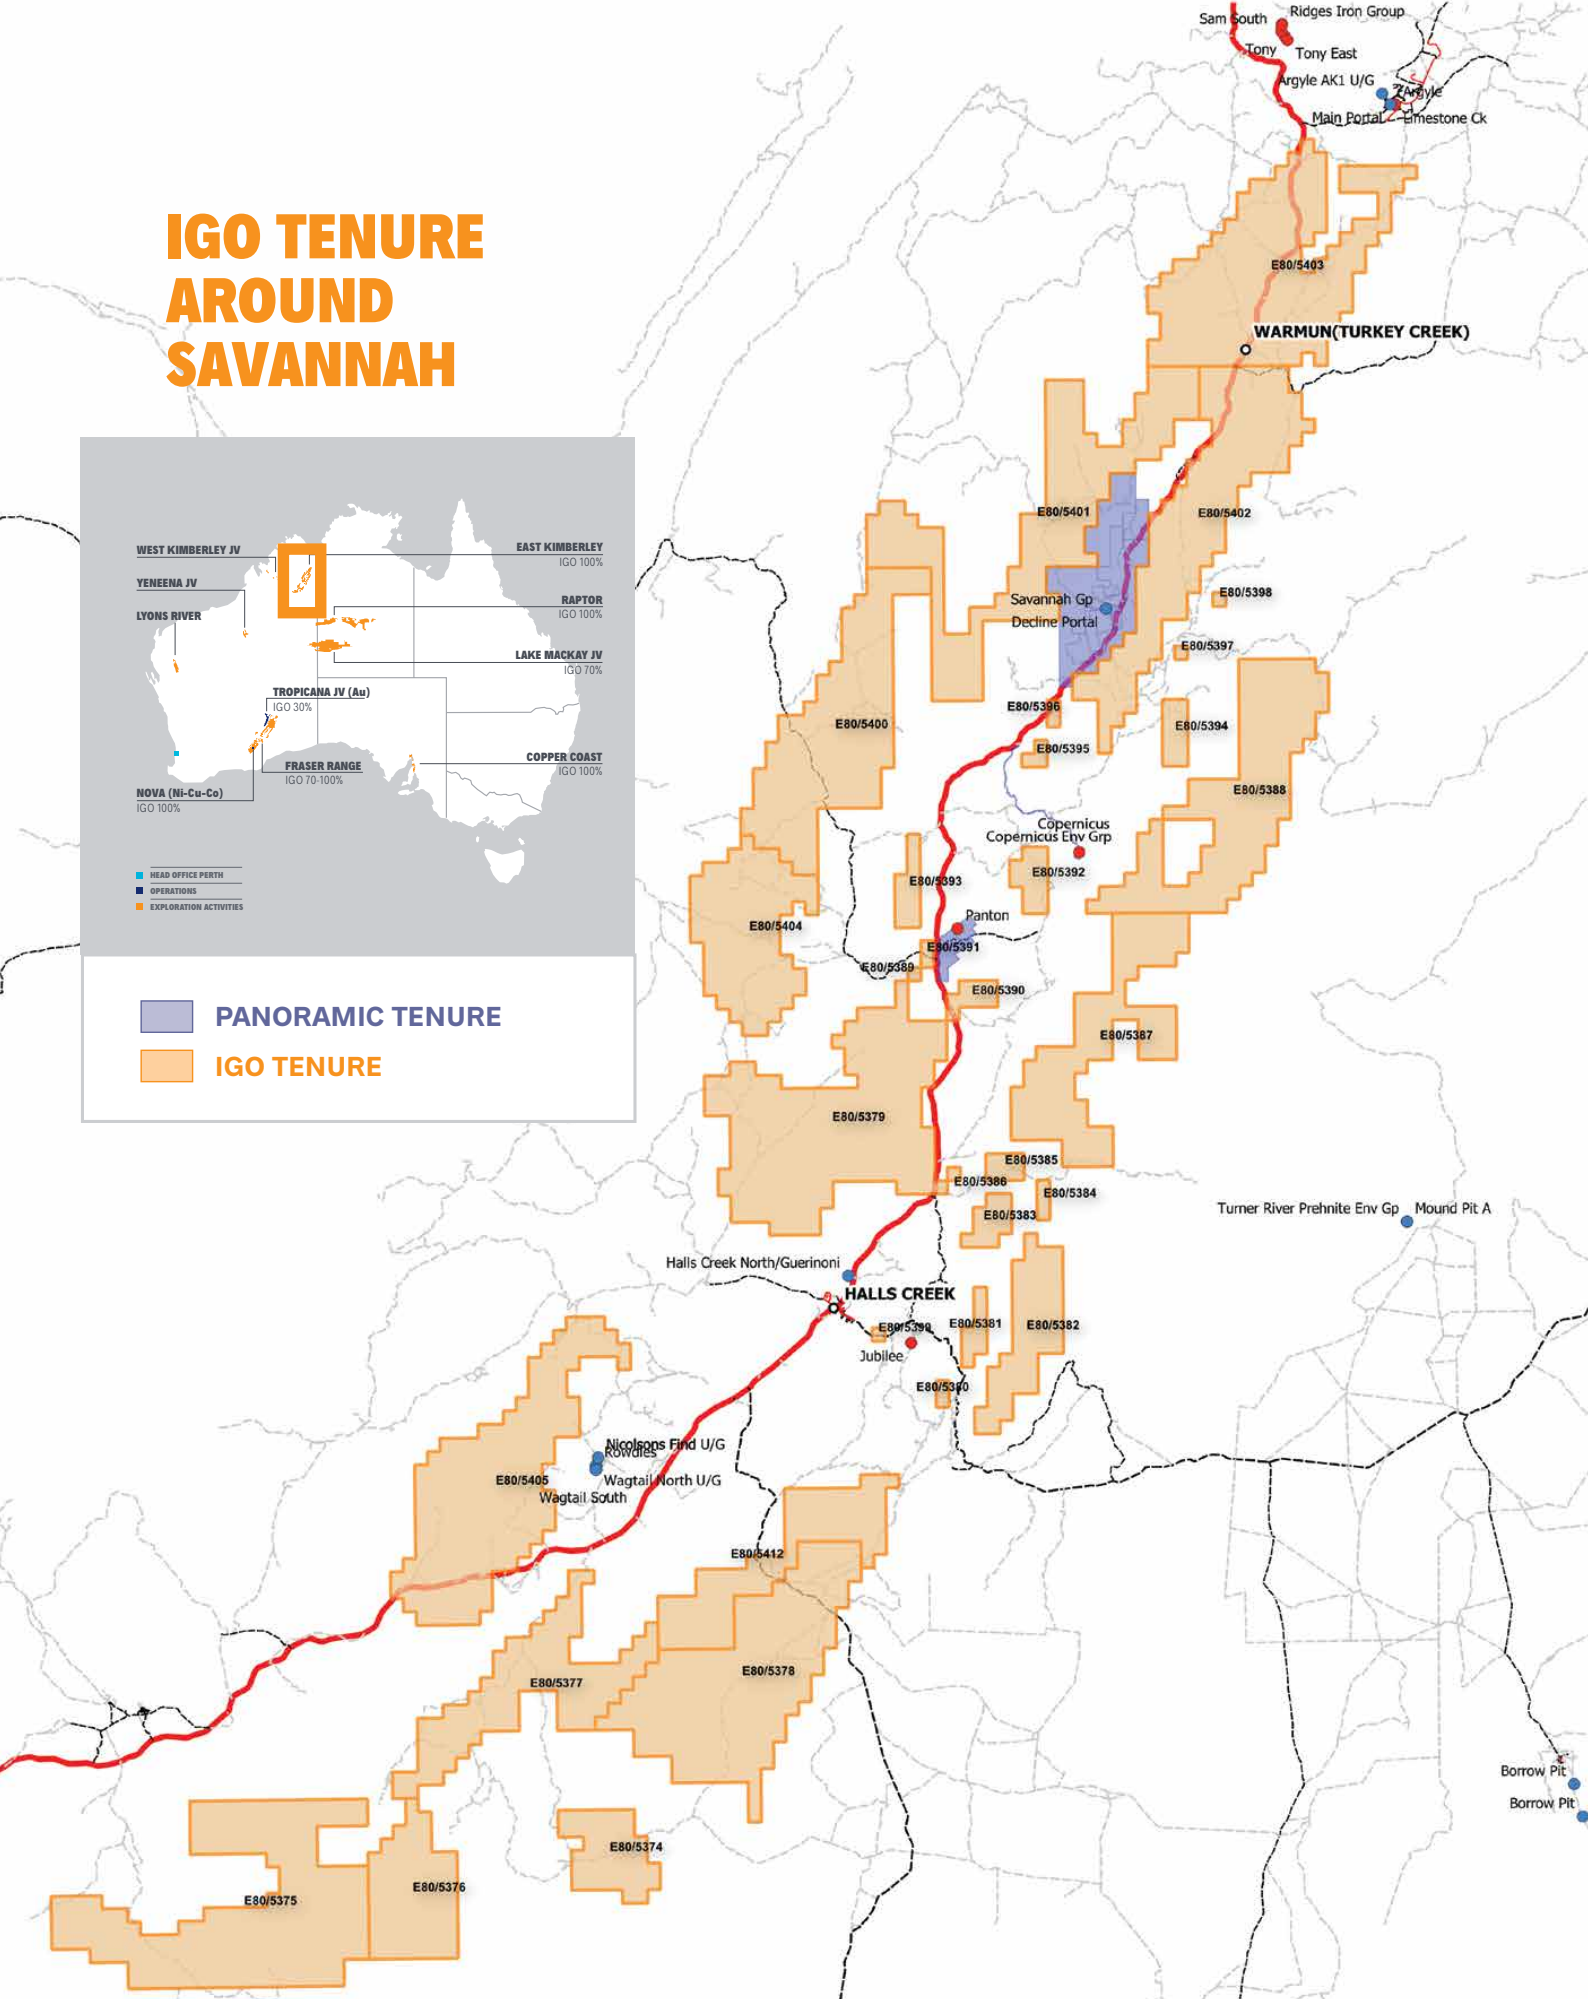

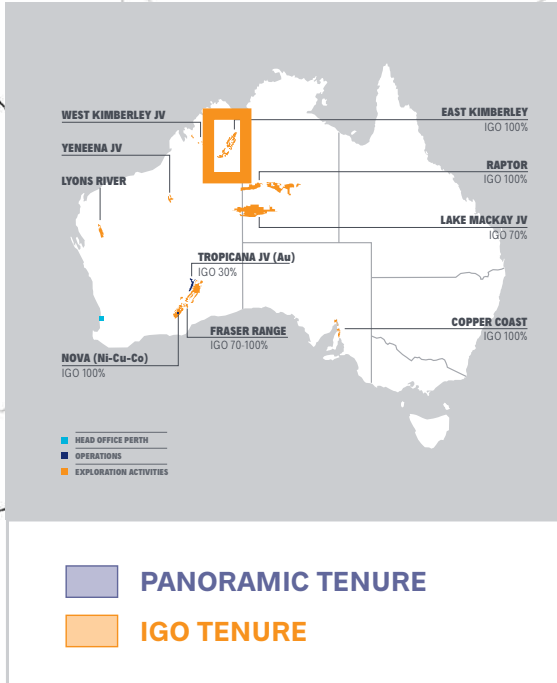

As a result of IGO's conviction in the potential of the regional geology, IGO has pegged over 6,000km² of exploration tenure around Savannah as presented on the map on the following page.

If IGO's Offer completes, IGO intends to undertake a comprehensive strategic review of Panoramic's assets in order to optimise value and assess the potential for step-change initiatives.

9. The Long operation was sold by IGO, effective 31 May 2019.

10. IGO expenditure reflects underlying free cash flow for exploration activities and excludes evaluation expenditure. Panoramic expenditure represents exploration and evaluation expenditure recognised on the consolidated income statement and exploration and evaluation expenditure classified as a cash flow from investing activities.

IGO FY17: underlying free cash flow for new business per June 2017 Quarterly Activities Report, page 16 (IGO ASX announcement 26 July 2017), adjusted for \$3.7 million of evaluation expenditure; IGO FY18: underlying free cash flow for new business per June 2018 Quarterly Activities Report, page 18 (IGO ASX announcement 27 July 2018), adjusted for \$4.4 million of evaluation expenditure; IGO FY19: underlying free cash flow for exploration per June 2019 Quarterly Activities Report, page 19 (IGO ASX announcement 31 July 2019); IGO FY20 guidance: per FY19 Financial Results, page 3 (IGO ASX announcement 29 August 2019); Panoramic FY19 and FY18: Panoramic 2019 Annual Report (PAN ASX announcement 18 October 2019), Panoramic FY17: Panoramic 2018 Annual Report (PAN ASX announcement 17 October 2018).
12. Gross gearing is calculated as total debt as at 30 September 2019 divided by market capitalisation as at 1 November 2019 (being the market value of equity).

4.

Retain and enhance exposure to attractive nickel market dynamics

In combination with the exposure accepting Panoramic Shareholders would have to the attractive, world class Nova operation and the Savannah operation, accepting Panoramic Shareholders would enjoy superior leverage to the nickel price (based on historical performance). Based on analysis of historical movements between the nickel price and share prices, IGO believes that a share in IGO is more likely than a share in Panoramic to benefit from a rising nickel price. The relative relationship of IGO and Panoramic's share prices to the US dollar nickel price is demonstrated below.

IGO's share price has historically demonstrated a stronger correlation to movements in the nickel price than Panoramic's share price.

Relative performance	PAN	IGO	LME Ni
Since 1 November 2018 (Last 12 Months)	(24%)	55%	46%
Since 11 March 2019 (First 2019 PAN Raising)	(15%)	33%	30%
Since 30 August 2019 (Indonesia Ni Export Ban)	(1%)	18%	(6%)

Last 12 Months Price Performance (relative to 1 November 2018)

13. As at close of trading 1 November 2019. The strength of the relationship between the share price of both Panoramic and IGO with the nickel price is measured by the coefficient of determination, also referred to as 'R Squared'. The coefficient of determination is a measure of the proportion of variance in a dependent variable that is predictable from an independent variable. The closer the measure is to one, the stronger the observed relationship between the variables.

5.

Benefit from IGO's attractive shareholder returns policy

In FY19, the IGO Board adopted a shareholder returns policy which targets the return of 15% to 25% of free cash flow (ie net cash flow from operating activities less cash outflow from investing activities) to shareholders via dividends and/or share buybacks. This was changed from a "net profit after tax" based dividend policy under which IGO paid cash dividends every year since 2004 (including during the ramp up of Nova and during periods of low nickel price). The total dividends paid by IGO in respect of FY19 pursuant to its shareholder returns policy was 10 cents per share.

By comparison, Panoramic has not paid a dividend to its shareholders since 2015. Instead, Panoramic has asked shareholders to contribute additional capital to the company twice in 2019 alone, raising approximately \$50.6 million before costs in new funds during Savannah's ramp-up. A comparison of historical dividends per share is presented in the chart below.

Additionally, it is not known whether Panoramic will call for further capital from shareholders while it continues its efforts to resolve challenges at Savannah or address the concerns of its lender (the Savannah Financing Agreement has been amended twice in 2019). With both asset and corporate level constraints, it is not clear when Panoramic Shareholders will receive future dividends.

6.

Potential access to CGT scrip for scrip rollover relief

Panoramic Shareholders may benefit from CGT scrip for scrip rollover relief if they **ACCEPT the Offer**. However, this benefit will not be available if IGO does not acquire 80% or more of Panoramic's shares outstanding, a scenario which could eventuate if (for example) Zeta does not accept the Offer.

Please refer to section 10 of this Bidder's Statement for more information.

SUMMARY OF THE OFFER

What IGO is offering to buy?

IGO is offering to buy all Panoramic Shares which it does not already own on the terms set out in this Bidder's Statement.

Instead, you will be paid by the Nominee the net proceeds of the sale of the IGO Shares you would have otherwise been entitled to. See section 12.7 for more information.

When you will receive the IGO Shares

Generally, IGO will issue the IGO Shares due to you under the Offer on or before the earlier of:

Full details of when consideration will be provided are set out in section 12.6 of this Bidder's Statement.

Foreign Shareholders and Small Parcel Shareholders will be provided with the net proceeds of sale to which they are entitled under the Offer at a different time. See section 12.7 for more information.

If Your Shares are registered in a CHESS Holding, or if you are a beneficial owner whose Panoramic Shares are registered in the name of a broker, bank custodian or other nominee, you will not be obliged to pay stamp duty by accepting the Offer, but you should ask your Controlling Participant (usually your broker) or that nominee whether it will charge any transactional fees or service charges in connection with acceptance of the Offer.

Close of the Offer

The Offer closes at 7.00pm (Sydney time) on , unless it is extended under the Corporations Act.

What risks are associated with the Offer?

You should carefully consider the risk factors that could affect the performance of IGO and the Merged Group before deciding whether to accept the Offer. A summary of the key risk factors is set out in section 9.

14. Based on the 1 month VWAP of IGO Shares up to and including 1 November 2019, being the last trading day before the Announcement Date.

2.3 PRINCIPAL ACTIVITIES OF IGO AND THE IGO GROUP

a. Nova nickel-copper-cobalt mine

The discovery of Nova (comprising the Nova and Bollinger deposits) is one of the most economically significant magmatic nickel sulphide discoveries since Voisey's Bay was discovered in 1993.

With a pre-mining resource of 325kt Nickel and 134kt Copper, Nova was the first discovery of its kind in the Albany Fraser Range and only the second major discovery in the region, following the discovery of Tropicana in 2005. Nova, then a development stage project, was acquired by IGO in September 2015 by the successful acquisition of Sirius Resources NL.

In FY19, Nova produced 30.7kt of nickel, exceeding guidance of 27-30kt and achieved a cash cost of \$2.07 per payable pound of nickel. FY20 guidance has been set at 27-30kt of nickel at a cash cost of \$2.00-2.50 per payable pound of nickel.¹⁸ The majority of capital development and resource definition drilling has been completed for the life-of-mine, which has significantly de-risked long-term operational performance.

IGO recently announced that following conclusion of a tender process it had entered new agreements for the sale of Nova nickel and copper concentrate on commercial terms materially better than the existing off-take agreements.¹⁹ A binding concentrate off-take agreement for a three-year term has been executed with Trafigura Pte Ltd for 50% of nickel concentrate and for 100% of copper concentrate produced from Nova. An off-take term sheet with BHP Billiton Nickel West Pty Ltd for an additional 50% of the nickel volume for a period of five years has also been executed, with the parties agreeing key commercial terms subject to the completion of the formal agreement within one month of the date of the term sheet (which formal agreement will be based on the current off-take agreement with BHP Billiton Nickel West Pty Ltd) and all necessary internal approvals of both parties.

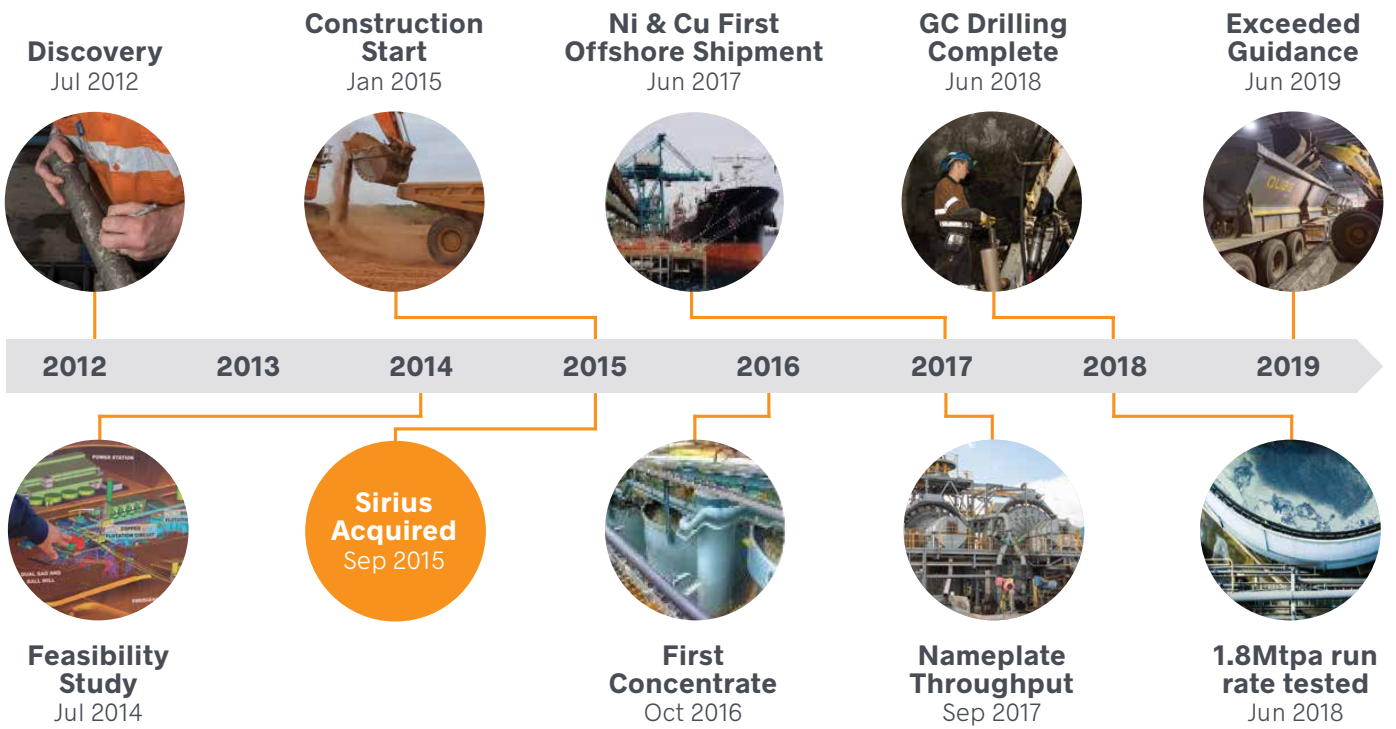

17. The information in relation to the Nova Mineral Resources and Ore Reserves is extracted from the report titled "CY18 Mineral Resource and Ore Reserve Statement" released on ASX on 20 February 2019, for which competent person's consents were obtained. These Mineral Resource and Ore Reserve statements and their accompanying assumptions, technical parameters and explanatory notes are available to be viewed at igo.com.au/site/operations/resources-and-reserves1. IGO is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources or Ore Reserves, considers that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The form and context in which the competent person's findings are presented have not been materially modified from the original market announcement. The competent person's consents remain in place for subsequent releases by IGO of the same information in the same form and context, until the consent is withdrawn or replaced by a subsequent report and accompanying consent.

b. Tropicana gold joint venture (IGO 30%)

Overview of the Tropicana gold operation²⁰

IGO has a 30% non-operating interest in the Tropicana gold mine. AngloGold Ashanti holds 70% and is the manager.

Targeting Tier 1 deposits in greenfields terranes has been a key strategy for IGO since the company was established, with the property that now hosts the Tropicana gold mine forming part of the original listed IGO entity in 2002. AngloGold Ashanti entered the project via joint venture immediately after IGO listed on the ASX. The Tropicana deposit was subsequently discovered in 2005, followed by the adjacent Havana deposit in 2006 and the Boston Shaker deposit in 2010.

The development decision was made in November 2010 and to date, the Tropicana gold mine has produced more than 2.8Moz of gold. In FY19, Tropicana produced 518koz of gold (100% basis) at an AISC of \$951/oz.

Development of an underground mine at Boston Shaker commenced on 8 May 2019 following completion of a positive feasibility study, and is expected to deliver first gold in the September 2020 quarter. This will enable Tropicana to maintain gold production at 450–500koz per annum until FY23, with further underground opportunities currently being assessed at Tropicana, Havana and Havana South²¹ that may add to future production.

20. The information in relation to Tropicana Mineral Resources and Ore Reserves is extracted from the report titled “CY18 Mineral Resource and Ore Reserve Statement” released on ASX on 20 February 2019, for which competent person’s consents were obtained. These Mineral Resource and Ore Reserve statements and their accompanying assumptions, technical parameters and explanatory notes are available to be viewed at igo.com.au/site/operations/resources-and-reserves1. IGO is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources or Ore Reserves, considers that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The form and context in which the competent person’s findings are presented have not been materially modified from the original market announcement. 2.3 PRINCIPAL ACTIVITIES OF IGO AND THE IGO GROUP CONT

c. Exploration

Exploration and discovery are central to IGO's growth strategy. IGO's exploration objective is to sustain a strong pipeline of high-quality projects, with a primary focus on nickel and copper and with the aim of delivering resource projects of meaningful scale. This is being achieved through a substantial financial commitment to both brownfield targets and belt-scale greenfield projects.

Nova near-mine exploration and the Fraser Range

IGO's current exploration focus is on the underexplored Fraser Range in Western Australia. Within this terrane there is a concentrated effort on the near-mine environment surrounding the high quality Nova nickel-copper-cobalt operation. On the Nova mining lease, IGO has acquired the largest hard-rock 3D seismic dataset in Australia and covered an even broader area with low-temperature SQUID electromagnetic surveys, with the aim of imaging Nova-like intrusive host rocks and the structural and stratigraphic architecture of the mineral system. Results have been positive, with the volume of mineralised host intrusive rocks exceeding expectations and informing new target areas that are the subject of a major diamond drilling program in FY20.

More broadly in the Fraser Range, IGO is maximising the opportunity for another material discovery by systematically exploring a belt-scale land holding (~12,700km²) with industry-leading technologies and scientific knowledge. IGO continues to generate and drill test a high-quality pipeline of geological, geochemical and geophysical targets.

Tropicana exploration

In 2018, infill and extensional drilling confirmed the presence of significant mineralisation at depth beneath the existing Boston Shaker open pit, for which underground mine development was approved in March 2019. Similar opportunities are the subject of ongoing work programs at Havana and Havana South, together with regional targeting and drill testing of early-stage prospects containing anomalous gold.

Other exploration

In addition to extensive exploration tenure in the Fraser Range, IGO is exploring several other belt-scale opportunities throughout Australia and overseas prospective for nickel and copper. These include the Lake Mackay joint venture and Raptor Project (both located in the Northern Territory), the Copper Coast Project (South Australia), the East Kimberley Project, the West Kimberley joint venture and the Yeneena joint venture (all in Western Australia), as well as the Frontier joint venture (Eastern Greenland). These projects deliver a pipeline of discovery opportunities aligned with IGO's strategy to discover and deliver commodities that are critical to clean energy, such as nickel, copper and cobalt.

e. Management commentary on historical financial information

1. Disposal of Long Operation and Jaguar Operation

IGO's historical financial statements reflect the impact of the Long and Jaguar operations that were sold effective 31 May 2019 and 31 May 2018 respectively. The Long operation produced primarily nickel, together with copper, until June 2018. The Long operation was placed in care and maintenance during June 2018, and subsequently sold effective 31 May 2019. The Jaguar operation primarily produced zinc and copper concentrate and was sold effective 31 May 2018.

2. Statement of profit or loss

IGO finished the year ending 30 June 2019 exceeding metal production guidance at Nova and comfortably meeting production guidance at Tropicana. The IGO Group generated a record total revenue and other income of \$793 million, slightly outperforming the prior year result of \$781 million. This was primarily due to increased product revenue from Nova, which delivered higher production year-on-year and outperformed the top end of IGO's production guidance in its second year since declaring commercial production.

Tropicana production was also higher than the previous year, driven by higher throughput and grade. During the year, together with IGO's joint venture partner, AngloGold Ashanti Australia, development of the Boston Shaker underground at Tropicana commenced, with the firing of the first blast for the portal taking place on 8 May 2019. The Boston Shaker underground has an estimated capital cost of \$105 million (including contingency), with IGO's share being \$32 million.

Exploration expenditure increased by \$17 million in FY19 compared to FY18, as the IGO Group ramped up its pursuit of an exploration discovery through numerous prospective targets in its portfolio of high quality belt scale tenement holdings.

IGO generated record underlying EBITDA of \$341 million (FY18: \$339 million), and net profit after tax of \$76 million (FY18: \$53 million).

3. Statement of cash flows

IGO's net cash position strengthened during the year ending 30 June 2019 to \$263 million (from \$4 million net debt at the end of the year ending 30 June 2018). Cash flows from operating activities for the IGO Group were \$372 million, compared to the FY18 year of \$278 million. This was predominantly the result of higher production from Nova, together with increased production and a higher realised gold price at Tropicana. Year-end cash balances were \$348 million and IGO's outstanding debt was \$86 million.

Nova generated \$289 million cash flows from operating activities, which was a result of 22,434 tonnes of payable nickel sold (FY18: 14,074 tonnes), 12,208 tonnes of payable copper (FY18: 8,455 tonnes) and 372 tonnes of payable cobalt (FY18: 217 tonnes) sold during the year. Tropicana generated cash from operating activities of \$148 million following the sale of 154,402 ounces of gold refined and sold. Cash flow from operating activities also included \$54 million cash outflow for exploration expenditure and \$6 million for evaluation expenditure. Operating cash flows also include \$12 million cash inflow for the sale of a royalty and \$18 million cash outflow for corporate, net borrowing and other costs.

Cash outflows from investing activities decreased to \$83 million for the year, down from \$105 million for the FY18 year. IGO spent \$78 million on development expenditure of which \$51 million was for waste stripping at Tropicana and the balance for underground mine development at Nova. During the year, IGO received scheduled deferred consideration totalling \$27 million in respect of the sale of Jaguar and the Stockman Project in FY18.

Cash flows from financing activities during the year included two semi-annual repayments of borrowings totalling \$57 million and dividends totalling \$24 million.

3.3 DIVIDEND HISTORY

As detailed on the previous page, the IGO Board has adopted a capital allocation policy that prioritises growth while also returning cash to shareholders. A return of 15% to 25% of free cash flow to shareholders is targeted in the form of dividends and/or share buybacks. This policy is reviewed every two years based on financial results, outlook for commodity prices, long term growth capital requirements for the business and balance sheet strength.

a. Introduction

The rights and liabilities attaching to the IGO Shares which will be issued as the consideration under the Offer are set out in IGO's constitution and are subject to the Corporations Act and the ASX Listing Rules.

The main rights and liabilities attaching to the IGO Shares are summarised below. This summary does not purport to be exhaustive and must be read subject to the full text of IGO's constitution.

At IGO's 2019 annual general meeting to be held on 20 November 2019, IGO shareholders will be voting on, amongst other things, whether IGO should convert from a no liability company to a public company limited by shares.²⁵ The passing of this resolution will be conditional on IGO shareholders also approving changes to IGO's constitution. IGO confirms that the non-exhaustive summary below applies to both IGO's existing constitution and the constitution proposed to be adopted at IGO's 2019 annual general meeting. Copies of both constitutions (existing and proposed) are available on request to IGO's Company Secretary (+61 8 9238 8300). As noted in section 2.1, at IGO's 2019 annual general meeting, IGO shareholders will also be voting on whether IGO should change its name from 'Independence Group NL' to 'IGO Limited'.

b. Meetings of shareholders and voting rights

At a meeting of IGO shareholders, each holder is entitled to attend and vote in person, by proxy, by attorney or by representative. Each IGO shareholder has one vote for each share held. A quorum is five or more members present at the meeting and entitled to vote on a resolution at the meeting.

Except where a resolution requires a special majority, questions arising at a general meeting must be decided by a majority of votes cast by the members present at the meeting. If the votes are equal on a proposed resolution, the chairperson of the meeting has a casting vote, in addition to any deliberative vote.

c. Dividends

The directors of IGO may pay any interim and final dividends that, in their judgement, the financial position of IGO justifies.

All dividends must be paid equally on all IGO Shares (except that under the proposed constitution (for which approval is sought at the 2019 annual general meeting) a partly paid share only confers an entitlement to the respective proportion to a dividend for that share).

a. Performance rights (long term incentive)

Performance rights under IGO's Employee Incentive Plan (**EIP**) are granted annually. The performance rights vest after three years from the start of the financial year, subject to certain performance conditions being met. On vesting, each right automatically converts into one ordinary share.

INFORMATION ON PANORAMIC AND THE PANORAMIC GROUP

4.1 OVERVIEW OF PANORAMIC

As stated in its 2019 Annual Report,²⁷ Panoramic is a Western Australian mining company formed in 2001 for the purpose of developing the Savannah Nickel Project in the East Kimberley. Panoramic successfully commissioned the \$65 million Savannah Project in late 2004 and then in 2005 purchased and restarted the Lanfranchi Nickel Project, near Kambalda. The Lanfranchi and Savannah Projects were placed on care and maintenance in November 2015 and May 2016 respectively, pending a sustained recovery in the nickel price.

After delivering an updated feasibility study on the Savannah Project in October 2017, securing an off-take customer and project financing for up to \$40 million in July 2018, Panoramic made the decision to restart operations at Savannah with first concentrate shipped from Wyndham in February 2019. Panoramic sold the Lanfranchi Project in December 2018 for total cash consideration of \$15.1 million, providing additional financial support for the re-commissioning of Savannah.

Apart from the nickel, copper and cobalt inventory at Savannah, Panoramic has exposure to platinum group metals and gold.

4.2 DIRECTORS

As at the date of this Bidder's Statement, based on Panoramic's public disclosures, the directors of Panoramic are:

a. Savannah

Panoramic manages and has a 100% interest in the Savannah nickel-copper-cobalt operation located in the East Kimberley region in Western Australia. Panoramic is currently focusing on the ramp up to full production from the Savannah orebody and completion of the development drive to access the higher grade Savannah North orebody.

Based on the results of the Updated Savannah Feasibility Study released on 27 October 2017, the mine life is expected to be approximately 8.3 years with an average annual production rate of 10,800t Ni, 6,100t Cu and 800t Co metal contained in concentrate over the life of mine.³¹ Operating cash costs are expected to be \$3.10 per pound of payable nickel (US\$2.40/lb) and sustaining cash costs are expected to be \$4.50 per pound of payable nickel (US\$3.50/lb) over the life of mine.³²

b. Other activities

Panoramic has a 51% majority interest in ASX-listed Horizon Gold Limited (**Horizon**), which owns 100% of the Gum Creek gold project located near Wiluna, Western Australia.

Panoramic also owns the Panton platinum group metals exploration project in Western Australia and is in the process of attempting to sell the Thunder Bay North platinum group metals project, located in Northern Ontario, Canada.

Notes

Thunder Bay North Open Pit Resource: The open pit Mineral Resource is reported at a cut-off grade of 0.59 g/t Pt-Eq within a Lerchs- Grossman resource pit shell optimized on Pt-Eq. The strip ratio (waste: ore) of this pit is 9.5:1. The platinum-equivalency formula is based on assumed metal prices and overall recoveries. The Pt-Eq formula is: Pt-Eq g/t = Pt g/t + Pd g/t x 0.3204 + Au g/t x 0.6379 + Ag g/t x 0.0062 + Cu g/t x 0.00011 + Total Ni g/t x 0.000195 + Total Co g/t x 0.000124 + Rh g/t x 2.1816. The conversion factor shown in the formula for each metal represents the conversion from each metal to platinum on a recovered value basis. The assumed metal prices used in the Pt-Eq formula are: Pt US\$1,595/oz, Pd US\$512/oz, Au US\$1,015/oz, Ag US\$15.74/oz, Cu US\$2.20/lb, Ni US\$7.71/lb, Co US\$7.71/lb and Rh US\$3,479/oz. The assumed combined flotation and PlatsolTM process recoveries used in the Pt-Eq formula are: Pt 76%, Pd 75%, Au 76%, Ag 55%, Cu 86%, Ni 44%, Co 28% and Rh 76%. The assumed refinery payables are: Pt 98%, Pd 98%, Au 97%, Ag 85%, Cu 100%, Ni 100%, Co 100% and Rh 98%.

Thunder Bay North Underground Resource: The underground mineral resource is reported at a cut-off grade of 1.94g/t Pt-Eq. The Pt-Eq formula is: Pt-Eq g/t = Pt g/t + Pd g/t x 0.2721 + Au g/t x 0.3968 + Ag g/t x 0.0084 + Cu g/t x 0.000118 + Sulphide Ni g/t x 0.000433 + Sulphide Co g/t x 0.000428 + Rh g/t x 2.7211. The assumed metal prices used in the Pt-Eq formula are: Pt US\$1,470/oz, Pd US\$400/oz, Rh US\$4,000/oz, Au US\$875/oz, Ag US\$14.30/oz, Cu US\$2.10/lb, Ni US\$7.30/lb and Co US\$13.00/lb. The assumed process recoveries used in the Pt-Eq formula are: Pt 75%, Pd 75%, Rh 75%, Au 50%, Ag 50%, Cu 90%, and Ni and Co in sulphide 90%. The assumed smelter recoveries used in the Pt-Eq formula are Pt 85%, Pd 85%, Rh 85%, Au 85%, Ag 85%, Cu 85%, Ni 90% and Co 50%. Ni and Co in sulphide were estimated by linear regression of MgO to total Ni and total Co respectively. The regression formula for Ni in sulphide (NiSx) is: NiSx = Ni - (MgO% x 60.35 - 551.43). The regression formula for Co in sulphide (CoSx) is: CoSx = Co - (MgO% x 4.45 - 9.25).

IGO has the capacity to issue the maximum number of IGO Shares which it may be required to issue under the Offer.

SECTION 7

BIDDER'S INTENTIONS IN RELATION TO PANORAMIC

-
- 7.1 Introduction

 - 7.2 Overview and rationale for the Offer

 - 7.3 Intentions for Panoramic as a wholly owned controlled entity

 - 7.4 Intentions for Panoramic as a part owned controlled entity

 - 7.5 Intentions for Panoramic if not controlled by IGO

 - 7.6 Other intentions

SECTION 7

BIDDER'S INTENTIONS IN RELATION TO PANORAMIC

7.1 INTRODUCTION

The intentions of IGO are set out in this section 7 of the Bidder's Statement. Those intentions have been formed on the basis of facts and information concerning Panoramic, and the general business environment, which are known at the time of preparing this Bidder's Statement. Final decisions will only be reached by IGO in light of material information and circumstances at the relevant time. Accordingly, the statements set out in this section are statements of current intention only and may vary as new information becomes available or circumstances change.

The articulation and formulation of IGO's intentions are necessarily limited by virtue of the fact that it has only had access to publicly available information about Panoramic and its affairs.

7.2 OVERVIEW AND RATIONALE FOR THE OFFER

IGO's rationale for making the Offer is to consolidate its position as a leading Australian mining and exploration company, with a strategic focus on metals critical to clean energy, at a time when positive structural change is occurring in the global nickel market as a result of this emerging demand from energy storage end users for nickel in electric vehicle batteries. The acquisition of Panoramic delivers a second production and exploration camp for IGO and leverages IGO's strengths in relation to underground nickel operations and exploration. IGO expects the acquisition to further strengthen its capacity to enhance shareholder returns and execute its growth strategy.

The Offer is consistent with IGO's strategic focus on metals critical to clean energy, focusing on nickel, cobalt and copper, and will contribute to the creation of a globally relevant, producer of high-quality battery metals products.

7.3 INTENTIONS FOR PANORAMIC AS A WHOLLY OWNED CONTROLLED ENTITY

This section 7.3 describes IGO's intentions if IGO and its associates acquire a relevant interest in 90% or more of Panoramic Shares, and so becomes entitled to proceed to compulsory acquisition of outstanding Panoramic Shares in accordance with Part 6A.1 of the Corporations Act.

In that circumstance, IGO's current intentions are as follows:

a. Corporate matters

IGO intends to:

1. proceed with compulsory acquisition of the outstanding Panoramic Shares in accordance with the provisions of Part 6A.1 of the Corporations Act;
2. thereupon arrange for Panoramic to be removed from the official list of the ASX; and
3. replace the members of the Board with the nominees of IGO. Replacement board members have not yet been identified by IGO and their identity will depend on the circumstances at the relevant time.

b. Strategic review

After the end of the Offer Period, IGO intends to conduct a strategic review of Panoramic's operations, assets and corporate structure. The review will use both qualitative and quantitative measures to evaluate Panoramic's performance, profitability and prospects. As part of this review, IGO intends to focus on the following areas (amongst others):

1. review of underground mining and processing operations at Savannah to determine whether there is potential for operational improvement based on IGO's financial capacity, operational experience and expertise;
2. review of exploration opportunities and priorities; and
3. integration with IGO's existing operational and corporate structure.

c. Impact on employees

As a result of the implementation of the above intentions, it is possible that certain operational functions (eg those relating to the maintenance of Panoramic's listing on the ASX and some head office functions) will become redundant. Some job losses may occur as a result, however, the incidence, extent and timing of such job losses cannot be predicted in advance. Where practicable, IGO will seek to minimise job losses through redeployment of the relevant Panoramic employees into other parts of the IGO business. If redundancies do occur, the relevant employees will be treated in accordance with their contractual and other legal entitlements.

7.4 INTENTIONS FOR PANORAMIC AS A PART OWNED CONTROLLED ENTITY

This section 7.4 describes IGO's intentions if, as a result of acceptances under the Offer, IGO controls Panoramic, but IGO is not entitled to proceed to compulsory acquisition in accordance with Part 6A.1 of the Corporations Act. This scenario may eventuate where, for example, Zeta does not accept the Offer.

In that circumstance, IGO's current intentions are as follows:

a. Corporate matters

IGO intends to:

1. seek to replace some of the members of the Panoramic Board with nominees of IGO, so that the proportion of such nominees is broadly similar to the voting power of IGO (subject to the Corporations Act and Panoramic's constitution). IGO would consider the recommendations in the ASX Corporate Governance Guidelines when determining the composition of the board. Replacement board members have not yet been finally decided by IGO and their identity will depend on the circumstances at the relevant time; and
2. cause Panoramic to apply to the ASX to de-list Panoramic if IGO acquires a relevant interest in at least 75% of the Shares but less than 90%. Otherwise, IGO intends to consider whether it is appropriate to maintain Panoramic's listing on ASX, having regard to considerations such as the costs associated with maintaining that listing, IGO's final level of ownership, the number of remaining shareholders in Panoramic and the level of trading in Panoramic Shares and the considerations in ASX Guidance Note 33.

It is possible that, even if IGO is not entitled to proceed to compulsory acquisition of minority holdings after the end of the Offer Period under Part 6A.1 of the Corporations Act, IGO may subsequently become entitled to exercise rights of general compulsory acquisition under Part 6A.2 of the Corporations Act; for example, as a result of acquisitions of Shares in reliance on the '3% creep' exception in item 9 of section 611 of the Corporations Act. If so, IGO intends to exercise those rights.

b. Operational review

After the end of the Offer Period, IGO intends to propose to the Panoramic Board that an immediate, broad based review of Panoramic's operations be conducted on both a strategic and financial level.

IGO intends, subject to the approval of the Panoramic Board, to participate in this review.

c. Limitations in giving effect to intentions

The ability of IGO to implement the intentions set out in this section 7.4 will be subject to the legal obligations of Panoramic directors to have regard to the interests of Panoramic and all Panoramic Shareholders, and the requirements of the Corporations Act and the ASX Listing Rules relating to transactions between related parties. IGO will only make a decision on the above mentioned courses of action following legal and financial advice in relation to those requirements.

7.5 INTENTIONS FOR PANORAMIC IF NOT CONTROLLED BY IGO

IGO reserves its right to declare the Offer free from the 50.1% minimum acceptance condition (or any other condition) to the Offer. However, it has made no decision as to whether it will do so.

This section 7.5 describes IGO's intentions if it were to declare the Offer free of the 50.1% minimum acceptance condition and if Panoramic does not become a controlled entity of IGO.

In that circumstance:

- IGO does not expect to be in a position to give effect to the intentions set out in sections 7.3 or 7.4 of this Bidder's Statement; and
- IGO's current intention is to continue to hold any stake in Panoramic with a view to maximising returns for its investment (this may result in IGO acquiring additional shares, to the extent permitted by law).

7.6 OTHER INTENTIONS

Subject to the matters described above in this section 7 and elsewhere in this Bidder's Statement and, in particular, the completion of the strategic review of Panoramic's operations, it is the intention of IGO, on the basis of the facts and information concerning Panoramic that are known to it and the existing circumstances affecting the assets and operations of Panoramic at the date of this Bidder's Statement, that:

- the business of Panoramic will be conducted in the same manner as at the date of this Bidder's Statement;
- there will be no redeployment of the fixed assets of Panoramic; and
- the present employees of Panoramic will, where practicable, continue to be employed by Panoramic.

SECTION 8

EFFECT OF THE OFFER ON IGO AND PROFILE OF THE MERGED GROUP

- 8.1 Corporate activities and strategy
- 8.2 Synergies
- 8.3 Pro forma production and cash cost profile for the Merged Group for FY20
- 8.4 Pro forma consolidated financial statements for the Merged Group
- 8.5 Forecast financial information for the Merged Group

8.1 CORPORATE ACTIVITIES AND STRATEGY

The addition of Panoramic and the Savannah Project to IGO's existing portfolio will strengthen IGO's position as a leading Australian mining and exploration company. It is consistent with IGO's strategic focus on metals critical to clean energy, with a primary focus on nickel and copper, and will contribute to the creation of a globally relevant producer of high-quality battery metals products.

8.2 SYNERGIES

As described in section 7, IGO intends to conduct a strategic review of Panoramic's operations, assets and corporate structure. As part of this review, IGO intends to focus on the following areas (amongst others):

- review of underground mining and processing operations at Savannah to determine whether there is the potential for operational improvement based on IGO's financial capacity, operational experience and expertise;
- review of exploration opportunities and priorities;
- review of procurement and supply arrangements; and
- review and integration with IGO's existing operational and corporate structure.

Each of these activities have the potential to identify synergies that may result in cost savings for the Merged Group. IGO has not yet quantified these synergies.

With IGO's technical, financial and operating experience and capabilities, there may be an opportunity to unlock step-change benefits which Panoramic could not realise on a standalone basis.

8.3 PRO FORMA PRODUCTION AND CASH COST PROFILE FOR THE MERGED GROUP FOR FY20

Set out below is the indicative pro forma production and cash cost profile of the Merged Group for FY20, prepared on the assumption that Panoramic becomes a wholly-owned subsidiary of IGO.

FY20 NiEq Production Guidance (kt)³⁷

37. Mid-point of FY20 production guidance per PAN ASX announcement 3 September 2019 ("Savannah Operations Update & Further Amendments to Project Loan Facility") and IGO 2019 Annual Report converted to nickel equivalent tonnes (NiEq) using the following spot prices as at 1 November 2019: US\$16,835/t Ni (IRESS), US\$5,825/t Cu (IRESS), US\$35,500/t Co (FactSet) and US\$1,510/oz Au (IRESS).

The pro forma production profile of the Merged Group has been calculated based on the mid-point of the latest FY20 production guidance provided by Panoramic and IGO.

Cash Cost and Margin to Nickel Price (\$/lb)³⁸

The cash cost presented for Panoramic reflects the life of mine operating cash cost set out in the updated Savannah feasibility study (released in October 2017), calculated as mining, processing, geology, OHS&E, general and administrative, and concentrate transport costs, plus royalties, less by-product credits, divided by payable nickel produced.³⁹

The cash cost presented for IGO reflects the mid-point of FY20 guidance for Nova cash costs, calculated inclusive of royalties and net of by-product credits divided by payable metal. The indicative pro forma cash cost for the Merged Group has been calculated based on the weighted average of nickel production (as per FY20 nickel production guidance).⁴⁰

The indicative margin to the nickel price has been calculated based on the spot LME nickel price converted to Australian dollars at the spot AUD/USD foreign exchange rate.⁴¹

8.4 PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS FOR THE MERGED GROUP

Set out below are the historical statements of financial position of IGO and Panoramic as at 30 June 2019 (together, **Historical Financial Information**) and the Merged Group Pro Forma Historical Statement of Financial Position at 30 June 2019 (**Pro Forma Historical Statement of Financial Position**).

a. Basis of presentation of pro forma financial information

The Pro Forma Historical Statement of Financial Position as at 30 June 2019 has been prepared to reflect the acquisition of Panoramic by IGO pursuant to the Offer, assuming that the Offer becomes unconditional and the level of acceptances result in IGO acquiring 100% of Panoramic. The Pro Forma Historical Statement of Financial Position is provided for illustrative purposes only and is prepared on the assumption that Panoramic became a wholly-owned subsidiary of IGO on 30 June 2019. It does not illustrate the financial position that may be contained in future financial statements of IGO.

In preparing the Pro Forma Historical Statement of Financial Position as at 30 June 2019, the uplift in value on acquisition of Panoramic has been attributed to Panoramic's mine and development properties. When performing the purchase price allocation on acquisition of Panoramic, additional assets and liabilities may be identified when IGO has access to the books and records of Panoramic. It has been assumed in the Pro Forma Historic Statement of Financial Position that there are no deferred tax consequences or goodwill arising from the acquisition.

38. Panoramic cash cost per the "operating cash cost" per PAN ASX announcement 27 October 2017 ("Updated Savannah Feasibility Study"); IGO cash costs per mid-point of FY20 Nova guidance per IGO 2019 Annual Report; spot nickel price per IRESS as at 1 November 2019.

39. PAN ASX announcement 27 October 2017 ("Updated Savannah Feasibility Study").

40. Mid-point of FY20 nickel production guidance per PAN ASX announcement 3 September 2019 ("Savannah Operations Update & Further Amendments to Project Loan Facility") and IGO 2019 Annual Report.

41. Spot LME nickel price as at 1 November 2019 per IRESS. Converted from US\$/t to US\$/lb using a conversion factor of 2,204.62 and converted to A\$/lb using the spot AUD/USD foreign exchange rate per IRESS of 0.69 at 1 November 2019.

SECTION 8

EFFECT OF THE OFFER ON IGO AND PROFILE OF THE MERGED GROUP

The Pro Forma Historical Statement of Financial Position as at 30 June 2019 has been prepared in a manner consistent with the recognition and measurement principles contained in Australian Accounting Standards, applied to the Historical Financial Information and the events or transactions to which the pro forma adjustments relate (the Pro Forma Adjustments), as if those events or transactions had occurred as at 30 June 2019. It is presented in an abbreviated form and does not contain all of the presentation and disclosures that are usually provided in an annual financial report prepared in accordance with the Corporations Act.

The Historical Financial Information contained in this section has been extracted from the respective audited financial statements of IGO and Panoramic as at 30 June 2019. Copies of the IGO and Panoramic annual financial statements can be found on their respective websites, being igo.com.au and panoramicresources.com.

The Pro Forma Historical Statement of Financial Position should be read in conjunction with the risk factors in section 9, other information contained in the Bidder's Statement and the accounting policies of IGO and Panoramic as disclosed in their most recent respective annual reports. A preliminary assessment of the IGO and Panoramic accounting policies has not identified any material differences in accounting policies adopted. Whilst not material in quantum, with respect to accounting for Panoramic's acquired exploration and evaluation expenditure, IGO has a policy of only capitalising acquired exploration and evaluation expenditure whereas Panoramic capitalises exploration and evaluation expenditure incurred by the company where rights to tenure of the area of interest is current and the activities are expected to be recouped through successful development and exploitation of the area or alternatively, by its sale. The financial impact of Panoramic adopting IGO's accounting policy on acquisition by IGO is not known and will be subject to the fair value assessment of Panoramic's exploration and evaluation assets at the date of acquisition.

BDO Corporate Finance (WA) Pty Ltd has been engaged as the Investigating Accountant to prepare an Independent Limited Assurance Report on the Historical Financial Information and the Pro Forma Historical Statement of Financial Position as at 30 June 2019 included in this section. The Independent Limited Assurance Report is set out in Attachment 1. Panoramic Shareholders should note the comments made in relation to the scope and limitations of the Independent Limited Assurance Report.

In preparing the Pro Forma Historical Statement of Financial Position, no adjustments have been made to reflect the operating efficiencies and administrative cost savings that could result from the operations of the Merged Group (as compared to those of IGO and Panoramic as separate entities). Further, the Pro Forma Historical Statement of Financial Position does not reflect all transactions which may have occurred since 30 June 2019, as discussed further below.

b. Pro forma consolidated statement of financial position of the Merged Group

The Pro Forma Historical Statement of Financial Position has been prepared on the assumption that Panoramic becomes a wholly-owned subsidiary of IGO.

The Offer consideration is one IGO Share for every 13 Panoramic Shares.

The table below shows the calculation of the new IGO Shares expected to be issued in a scenario where IGO acquires all of the shares in Panoramic that it does not already own. The table also shows the value of the purchase consideration under that scenario, using an assumed IGO share price of \$6.19, being the 1 Month VWAP of the IGO share price up to and including 1 November 2019, being the last trading day before the Offer was announced.

New IGO Shares to be issued as Offer consideration (100% acquisition)	
Panoramic Shares on Issue at the date of this Bidder's Statement not already owned by IGO	629,315,384
Exchange ratio (Panoramic Shares per IGO share)	13
Total new IGO Shares to be Issued as Offer consideration	48,408,876
IGO Share price (1 Month VWAP up to and including 1 November 2019)	6.19
Value of new IGO Shares to be issued (A\$)	299,734,866

d. Pro forma adjustments

The following pro forma adjustments (Pro Forma Adjustments) have been made for the purposes of preparing the Pro Forma Historical Statement of Financial Position:

Note a – The acquisition of 100% of Panoramic by IGO in accordance with the Offer. The fair value of the Offer consideration has been calculated at \$299.7 million. Assumptions regarding the capital structure and purchase consideration are set out in this Bidder's Statement. The actual cost of acquisition will be determined after the close of the Offer Period, based on the IGO Share price at that time.

Note b – Fair value accounting adjustments on the acquisition of Panoramic. The purchase price accounting for the acquisition has been determined on a provisional basis. This adjustment assumes that the purchase price (including 24,920,325 Panoramic Shares acquired by IGO post 30 June 2019 for \$8.4 million) is allocated to Panoramic's assets and liabilities based on their book value at 30 June 2019, with residual value attributable to Mine & Development Properties.

After the end of the Offer Period, IGO will undertake an assessment of the fair value of all assets acquired and liabilities assumed. This exercise may give rise to material differences in value and may result in fair values being attributed to other assets and liabilities on the Pro Forma Historical Statement of Financial Position.

Note c – Accrual of estimated transaction costs (advisory fees and land holder duty) relating to the Offer of \$15.0 million. These costs have been expensed on a pre-tax basis in the Pro Forma Historical Statement of Financial Position.

Note d – This adjustment eliminates Panoramic's pre-acquisition contributed equity, reserves and retained earnings at 30 June 2019 (including the adjustment for the capital raising in 'note e' below).

Note e – This adjustment reflects the pro forma effect of the capital raising announced by Panoramic on 5 September 2019 (a fully-underwritten 2 for 11 pro-rata renounceable entitlement offer at \$0.28). Net proceeds from the capital raising for approximately \$27 million after costs, with \$20 million used to reduce the balance of the Savannah Financing Agreement.

Note f – This adjustment reflects the restatement of the fair value of nickel forward contracts between 30 June 2019 and the Offer date. An amount of \$46.3 million has been recorded against the carrying value of derivative financial instruments and this has been reflected on a pre-tax basis as a loss of Other Comprehensive Income in Reserves. In addition, the adjusted fair values of these derivative financial instruments have been re-classified as non-current as at 30 June 2019 following Panoramic's announced deferral of the settlement dates for these hedges to a period that commences in July 2020.

e. Pro forma adjustments if IGO controls only 50.1% of Panoramic

In the event that at the end of the Offer Period IGO only controls 50.1% of Panoramic Shares, the Merged Group Pro Forma Historical Statement of Financial Position as at 30 June 2019 presented above would be amended as follows:

Note a – The pro forma adjustment to contributed equity would reduce by \$149.6 million (reflecting the acquisition of a relevant interest in only 50.1% of Panoramic in accordance with the Offer) and the pro forma adjustment to non-controlling interest would increase by \$149.6 million (reflecting the remaining 49.9% of Panoramic not controlled by IGO).

Note c – The accrual of estimated transaction costs would be lower, reflecting the lower (advisory fees and land holder duty) relating to the Offer of \$7.5 million. These costs would be expensed on a pre-tax basis in the Pro Forma Historical Statement of Financial Position.

f. Items not included in the Merged Group Pro Forma Historical Statement of Financial Position

After the end of the Offer Period, should IGO acquire 100% of Panoramic Shares, Panoramic and its 100% owned subsidiaries will join the IGO tax consolidated group. As a result of the tax consolidation regime, the existing tax base of Panoramic's assets will be reset which may have an impact on current and deferred tax balances recognised in relation to Panoramic's assets. A detailed analysis of the consequences of joining the IGO tax consolidated group will be undertaken following implementation, and have not been included in the Merged Group Pro Forma Historical Statement of Financial Position.

The Pro Forma Adjustments are provided for illustrative purposes only and have been prepared on the assumption that IGO had 100% control of Panoramic Shares at 30 June 2019. Note disclosure is provided in (e) above as to how the Pro Forma Adjustments would be different in the event that only 50.1% of Panoramic Shares are controlled by IGO.

Various matters have occurred since the date of the Pro Forma Historical Statement of Financial Position and will continue to occur up to the date of the end of the Offer Period, that would otherwise impact on the Pro Forma Historical Statement of Financial Position. These matters include:

- Panoramic continuing its operations, including development activities in relation to Savannah North; and
- IGO continuing its operations and generating significant cash flows from its operations.

8.5 FORECAST FINANCIAL INFORMATION FOR THE MERGED GROUP

The IGO Board has given careful consideration as to whether a reasonable basis exists to produce reliable and meaningful forecast financial information in relation to the Merged Group, other than IGO's production and cost guidance for FY20 and the general overview of the strategy and financial profile of the Merged Group set out in this Bidder's Statement. The IGO Board has concluded that such forecast financial information has the potential to be misleading and a reasonable basis does not exist for producing forecasts that would be sufficiently meaningful and reliable to be of value to either Panoramic Shareholders or IGO shareholders.

SECTION 9

RISK FACTORS

-
- 9.1 Risks relating to the Offer and the creation of the Merged Group

 - 9.2 Risks relating to the mining and exploration sector

 - 9.3 General risks

SECTION 9

RISK FACTORS

If the Offer becomes unconditional, Panoramic Shareholders who accept the Offer will become IGO shareholders, and IGO will acquire an interest in Panoramic. In that event, Panoramic Shareholders will continue to be indirectly exposed to the risks associated with having an interest in Panoramic's assets and general economic, share market and industry risks. There are also additional risks relating to the Offer and the Merged Group, to which Panoramic Shareholders will be exposed through their holding of IGO Shares.

The value of IGO Shares is influenced by a range of factors, many of which are beyond the control of the Merged Group. These risk factors are divided into:

- specific risks relating to the Offer and the creation of the Merged Group;
- risks relating to the mining and exploration sector; and
- other general risks.

You should carefully consider the following risk factors, as well as the other information provided by IGO, and consult your financial and legal advisers before making a decision as to whether to accept the Offer.

The risk factors presented in this section are not an exhaustive list of all risks and risk factors related to IGO, the Merged Group or the Offer. There may be additional risks and uncertainties that IGO is aware of, or that it currently considers to be immaterial, or that are not currently known to IGO, that may become important factors that adversely affect IGO's operating and financial performance.

This section does not take into account the investment objectives, financial situation, position or particular needs of Panoramic Shareholders.

9.1 RISKS RELATING TO THE OFFER AND THE CREATION OF THE MERGED GROUP

a. Issue of IGO Shares as consideration

Panoramic Shareholders are being offered consideration under the Offer that consists of a specified number of IGO Shares, rather than a number of IGO Shares with a specified market value. As a result, the value of the consideration will fluctuate depending upon the market value of the IGO Shares.

Furthermore, under the Offer, IGO will issue a significant number of IGO Shares. Some Panoramic Shareholders may not intend to continue to hold their IGO Shares and may wish to sell them on ASX. There is a risk that if a significant number of Panoramic Shareholders seek to sell their IGO Shares, this may adversely impact the price of IGO Shares.

b. Integration risks

There are risks that any integration between the businesses of IGO and the Panoramic Group may take longer than expected and that anticipated efficiencies and benefits of that integration may be less than estimated. These risks include possible differences in the management culture of the two groups, inability to achieve synergy benefits and cost savings, and the potential loss of key personnel, suppliers or other contractual arrangements.

c. Accounting for the Offer

IGO will be required to perform a fair value assessment of all Panoramic's assets and liabilities if the Offer is successful. This assessment may result in increased non-cash depreciation and amortisation charges. There is a risk that these charges may be substantially greater than those that would exist in IGO and Panoramic as separate businesses. This may reduce the future earnings of the Merged Group.

d. Dividends

IGO's cash returns to shareholders policy targets the return of 15% to 25% of free cash flow to shareholders. However, the payment of dividends (if any) by IGO is determined by the IGO Board from time to time at its discretion, and is dependent upon factors including the profitability and cash flow of IGO's business at the relevant time. Any dividends paid by IGO in the future will be subject to similar considerations.

The Merged Group will operate in a cyclical sector, in which financial characteristics (such as commodity prices, foreign exchange rates and energy costs) vary and as a result will have an impact on profit and cash flow generation. This may result in variations in the capability of the Merged Group to make dividend payments to shareholders through varying business cycles.

Further information about IGO's shareholder returns policy is set out in section 3.3 of this Bidder's Statement.

e. Customer concentration

The Merged Group will rely on a contracted customer base to generate its revenue. Whilst the Merged Group will seek to have a reasonably broad customer base, there are risks associated with customer concentration. For example, Nova revenues are currently being derived from BHP Billiton Nickel West Pty Ltd, Trafigura Pte Ltd and Glencore International Ag (Glencore until December 2019 only). Savannah's sole customer is the Sino Nickel joint venture between Jinchuan Group Co. Ltd and Sino Mining International Limited. Revenue from the sale of gold produced at the Tropicana mine is derived from the Perth Mint, National Australia Bank Ltd, Commonwealth Bank of Australia Ltd and Australia and New Zealand Banking Group Ltd. If key customers default or cease dealing with the Merged Group in the future, the ability of the Merged Group to generate revenue from its produced commodities may be adversely impacted.

IGO endeavours to ensure that sales of products are made to customers with an appropriate credit history. IGO has further sought to manage the risk of customer concentration by generating a diversified customer base and making contractual arrangements to guarantee the receipt of a majority percentage of expected payments.

IGO's customers may change over time depending on market conditions and market pricing opportunities.

f. Acquisitions

IGO regularly identifies and assesses potential opportunities for acquisitions and growth initiatives where it considers the opportunities may create shareholder value. The Merged Group will continue to identify and assess such opportunities. While the Merged Group intends to undertake appropriate due diligence to properly assess any such opportunities, these transactions involve inherent risks. These risks could cause the Merged Group not to realise the benefits anticipated to result from such transactions (or the benefits may take longer than expected to be realised), which may have a material adverse effect on the Merged Group's ability to grow and on its financial position and financial performance. In addition, acquisitions may be funded by the issue of additional IGO Shares, which may dilute IGO shareholders, or by debt, which will affect will affect the Merged Group's balance sheet accordingly.

g. Financing risks and capital requirements

The Merged Group's capital requirements will depend on a number of factors. While IGO expects the Merged Group to have sufficient funding in relation to its existing operations (based on existing estimates of funding requirements), funding requirements may change in the future depending on multiple factors including (without limitation) further acquisitions, divestments and commodity prices.

The Merged Group may be required to seek additional financing (either in the form of debt or equity) and there is no guarantee that the Merged Group will be able to secure the required level of funding. Any debt financing, if available, may involve restrictions on the Merged Group's financing and operating activities, or its business strategy and additional equity financing may dilute shareholders and may be undertaken at lower prices than the current market price. No assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the Merged Group or at all. If the Merged Group is unable to obtain additional financing as needed, it may be required to reduce, delay or suspend its operations and this could have a material adverse effect on IGO's operations and financial position.

In the ordinary course of operations and development, IGO will be required to issue financial assurances, particularly assurances and bond/bank guarantee instruments, to secure statutory and environmental performance undertakings and commercial arrangements. IGO's ability to provide such assurances is subject to external financial and credit market assessments, and its own financial position.

h. Due diligence

Information relating to Panoramic that has been presented in, or omitted from, this Bidder's Statement, including all Panoramic financial information, has been based on publicly available information. IGO has not yet had the opportunity to carry out any due diligence in respect of Panoramic. Any inaccuracy or omission in such publicly available information may adversely affect the results of operations of the Merged Group.

In addition, Panoramic may be a party to contracts that grant the counterparty certain rights (including review or termination) on a change of control of Panoramic. An exercise of these rights by a counterparty may adversely affect Panoramic or the Merged Group.

i. Risks associated with retention of a minority stake

There are some risks associated with the Offer for Panoramic Shareholders who do not accept the Offer and remain Panoramic Shareholders. If, in connection with or following the Offer, IGO acquires between 90% and 100% of the Panoramic Shares, IGO may be entitled to compulsorily acquire the remaining shares of the Panoramic Shareholders.

If, in connection with the Offer, IGO acquires more than 50.1% but less than 90% of the Panoramic Shares, IGO will hold a controlling interest in Panoramic. The remaining Panoramic Shareholders will be in a minority position in a company with a large controlling shareholder whose objectives for the company may differ from their own. They could also encounter a lower level of liquidity in Panoramic Shares than exists today, which could result in a lower price for those Panoramic Shares should they wish to sell them in future.

If, following the Offer, IGO does not acquire a relevant interest of at least 50.1% of the Panoramic Shares, it may choose to waive the 50.1% condition of its Offer resulting in IGO holding a non-controlling interest in Panoramic. If this occurred, it is possible that IGO and another person or persons could each hold large minority interests in Panoramic. In such a situation, any commercial misalignment between large minority shareholders could impact on the efficient and effective governance of Panoramic and could adversely affect its ongoing performance.

j. Potential unavailability of CGT scrip for scrip rollover relief

Panoramic Shareholders who accept the Offer and receive IGO Shares may, in some circumstances (particularly where IGO does not obtain 80% or more of the Panoramic Shares under the Offer) have a CGT liability but will not be able to claim CGT scrip for scrip rollover relief in respect of the IGO Shares received in exchange for the Panoramic Shares. The Australian taxation implications of accepting the Offer are discussed in greater detail in section 10.

9.2 RISKS RELATING TO THE MINING AND EXPLORATION SECTOR

a. Commodity price volatility

IGO's revenues and cash flows are largely derived from the sale of a variety of commodities, including nickel, copper, cobalt and gold. The prices that the Merged Group obtains for its products will be determined by, or linked to, prices in world commodity markets, which have historically been subject to substantial volatility. Commodity prices are affected by underlying global economic and geopolitical factors, industry demand and supply balances, trade wars, product substitution and national tariffs.

Changes in commodity prices may have a positive or negative effect on the Merged Group's production plans and activities, together with the ability to fund those plans and activities.

IGO has adopted a Group Financial Control Standard: Financial Risk Management policy that provides IGO with a mechanism to hedge part of its Australian dollar and US dollar denominated value of expected sales of nickel, copper and gold production in order to manage its exposure to potential variability in the prices of these commodities. However, the Merged Group will still be exposed to spot prices for the remainder of its anticipated future production of these and other commodities. IGO cannot provide any assurance as to the prices that the Merged Group will achieve for its commodities in the future.

b. Operating risk

The Merged Group's assets and mining operations, as any others, will be subject to uncertainty with respect to (among other things): ore tonnes, mine grade, ground conditions, metallurgical recovery or unanticipated metallurgical issues (which may affect extraction costs), in fill resource drilling, mill performance, the level of experience of the workforce, operational environment, funding for development, regulatory changes, accidents and other unforeseen circumstances such as unplanned mechanical failure of plant or equipment, storms, floods, bushfires or other natural disasters.

The occurrence of any of these circumstances could result in the Merged Group not realising its operational or development plans, or plans costing more than expected or taking longer to realise than expected. Any of these outcomes could have an adverse effect on IGO's financial and operational performance.

IGO has provided production guidance for its Nova and Tropicana operations for FY20. While IGO considers that this guidance is reasonable, actual future production may vary from the guidance for various reasons, many of which cannot be foreseen and are beyond the control of IGO. These factors may cause the production guidance not to be achieved or to be achieved later than expected, or to be achieved at a higher cost than anticipated.

c. Exploration risk

Exploration activities are speculative by nature and therefore are often unsuccessful. Such activities also require substantial expenditure and can take several years before it is known whether they will result in additional mines being developed. Accordingly, if the exploration activities undertaken by the Merged Group do not result in additional reserves or identified

resources cannot be converted into reserves, there may be an adverse effect on the Merged Group's financial performance.

The success of the Merged Group will depend on successful exploration and acquisition of reserves, design and construction of efficient processing facilities, competent operation and management, proficient financial management, access to required development capital, movement in the price of commodities, securing and maintaining title to IGO's pre-existing exploration and mining tenements and obtaining all consents and approvals necessary for the conduct of its exploration activities. Failure in any of these areas may adversely impact the profitability and financial position of the Merged Group.

In addition, the exploitation of successful discoveries would involve obtaining the necessary licences or clearances from relevant authorities that may require conditions to be satisfied and the exercise of discretions by such authorities. It may or may not be possible for such conditions to be satisfied. Further, the decision to proceed to further exploitation may require participation of other companies whose interests and objectives may not be the same as the Merged Group's interests and objectives.

d. Development risk

In the course of its operations IGO conducts exploration and feasibility studies relating to potential developments. The commercial viability of any such endeavours is based upon estimates of the potential size and grade of Mineral Resources or Ore Reserves, proximity to infrastructure and other required resources (such as energy and water), potential production rates, the feasibility of recovery of metals, capital and operating costs, and metal demand and prices. Some projects also remain subject to the completion of favourable environment assessments, further feasibility studies, the grant and maintenance of necessary permits and authorisations, and receipt of adequate financing.

It is possible that certain projects may be delayed, cancelled or otherwise adjusted due to a lack of commercial viability associated with such factors.

Despite careful evaluation that includes the factors set out above, it is possible that development projects do not realise their predicted value or revenue due to circumstances beyond the control of the Merged Group.

e. Estimate risk

The Mineral Resources and Ore Reserves for IGO's and Panoramic's assets are estimates only and no assurance can be given that any particular recovery level of metals will in fact be realised. These estimates are prepared in accordance with the JORC Code (see further sections 11.4 and 11.5 of this Bidder's Statement), but they are expressions of judgement based on knowledge, experience and industry practice, and may require revision based on actual production experience which could in turn affect the Merged Group's mining plans and ultimately its financial performance and value.

Estimates that are valid when made may change significantly when new information becomes available. In addition, commodity price fluctuations, as well as increased production costs or reduced throughput and/or recovery rates, may render reserves and resources uneconomic and so may materially affect the estimates.

f. Foreign exchange rate risk

The Merged Group will be an Australian business that reports in Australian dollars. IGO's base metals revenue is derived from the sale of commodities that are typically priced in US dollars, and the majority of its costs are usually denominated in Australian dollars. Therefore, the Merged Group will be exposed to movements in foreign exchange rates (in particular, the US dollar-to-Australian dollar exchange rate), the impact of which cannot be predicted reliably.

IGO manages its foreign exchange risk via the adoption and implementation of the Group Financial Control Standard: Financial Risk Management policy. The foreign exchange risk management approach is aimed at reducing the impact of foreign exchange fluctuations on the reported annual earnings and operating cash flows. Strategic metal hedging aims to have associated foreign exchange hedging. The Merged Group will still be exposed to foreign exchange risk in relation to currency that has not been hedged.

g. Joint ventures

The Merged Group may hold assets or developments or undertake projects through incorporated and unincorporated joint ventures with third parties. There is a risk of financial failure or default by a participant in any joint venture to which the Merged Group is or may become a party. Disagreements between co-venturers or a failure of a co-venturer to adequately manage a project poses a further risk of financial loss or legal or other disputes with the other participants in such a joint venture.

Projects held and run through joint ventures impose a number of restrictions on the Merged Group's ability to sell its interest in any assets held through such a structure and may require prior approval of the other joint venture partner or may be subject to pre-emptive rights.

h. Laws, regulations, rules, approvals, licences and permits

The Merged Group's operations will be subject to various Federal, State and local laws and plans, including those relating to mining, prospecting, development permit and licence requirements, industrial relations, environment, land use, royalties, water, native title and cultural heritage, mine safety and occupational health. No assurance can be given that new rules and regulations will not be enacted or that existing rules and regulations will not be applied in a manner which could limit or curtail exploration, production or development.

Approvals, licences and permits required to comply with such rules and regulations are subject to the discretion of the applicable government officials. No assurance can be given that IGO will be successful in obtaining any or all of the various approvals, licences and permits or maintaining such authorisations in full force and effect without modification or revocation. To the extent such approvals are required and not retained or obtained

in a timely manner or at all, the Merged Group may be limited or curtailed from continuing or proceeding with exploration, production or development.

IGO cannot guarantee that all or any licences or permits in which the Merged Group has interests will be renewed. Such renewals are at the discretion of relevant government bodies and ministries in the jurisdiction, and often depends on the Merged Group being successful in obtaining other required statutory approvals for its proposed activities. There is no assurance that such renewals will be granted, nor that they will be granted without different or further conditions attached.

i. Land access arrangements

Mineral exploration, development and mining generally require consultation and agreement with landholders or other third parties in relation to access arrangements regarding underlying land. The Merged Group may be subject to restrictions associated with such land access arrangements, and may be required to pay compensation or adhere to other attached conditions. There is the further risk that landholders or other third parties may refuse access to the relevant land, which may negatively impact the Merged Group's capacity to further explore or develop any projects the subject of such land.

j. Unexpected natural or operational catastrophes

The operations of IGO and Panoramic may both be affected by various factors outside of IGO's control, including natural disasters and operational and technical catastrophes. These include flooding or adverse weather conditions, fires, explosions, rock falls, water ingress and seismic activity that affect the exploration, development or mining operations of the business.

k. Title risks

The Native Title Act 1993 (Cth) recognises and protects the rights and interest in Australia of Aboriginal and Torres Strait Islander people in land and waters according to their traditional laws and customs. Native title may impact the Merged Group's operations and future plans. Native title is not generally extinguished by the grant of exploration and mining tenements, as they are not generally considered to be a grant of exclusive possession. However, a valid exploration or mining tenement prevails over native title to the extent of any inconsistency for the duration of the title.

There may be areas in relation to tenements which the Merged Group has an existing interest in, or will acquire an interest in the future, over which common law Native Title rights exist, or may be found to exist, which may preclude or delay exploration, development or production activities.

The Merged Group will also need to comply with Aboriginal heritage legislation requirements which require heritage survey work to be undertaken ahead of the commencement of mining and exploration operations.

I. Environmental risk

The operations and activities of the Merged Group will be subject to the environmental laws and regulations of Australia and the other jurisdictions in which the Merged Group may conduct business. As with most exploration projects and mining operations, the Merged Group's operations and activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. IGO attempts to conduct its operations and activities to the highest standard of environmental obligation, including compliance with all environmental laws and regulations.

IGO is unable to predict the effect of additional environmental laws and regulations which may be adopted in the future, including whether any such laws or regulations would materially increase the Merged Group's cost of doing business or affect its operations in any area. However, there can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Merged Group to incur significant expenses and undertake significant investments which could have material adverse effect on the Merged Group's business, financial condition and performance.

m. Health, safety and hazardous materials

The potentially hazardous nature of exploration and mining mean that health and safety regulations impact the activities of the Merged Group. Any injuries or accidents that occur on a site of operations of the Merged Group could result in legal claims, potential delays or stoppages and other actions that could adversely affect the Merged Group.

As announced by IGO, the Department of Mines, Industry Regulation and Safety investigation into the fatality that occurred following an incident involving an employee of IGO's haulage contractor at Nova in September 2019 is ongoing.

n. Availability of resources

Fluctuations in the price and availability of resources required for the operations of the Merged Group, including materials required for operations, water and energy resources such as diesel, gas and other fossil fuels may materially impact the operations and financial position of the Merged Group.

The Merged Group requires specific consumables, spare parts, plant and equipment and construction materials for its exploration, development and mining activities. Any delay, lack of supply or increase in price in relation to such equipment and material could adversely impact the financial position of the Merged Group.

o. Infrastructure, transportation and remoteness of operations

The commodities expected to be produced by the Merged Group will be required to be transported to customers domestically and internationally. Each stage of the transportation process poses risks, including the initial remoteness of the Merged Group's projects. Fuel costs, unexpected delays and accidents could materially impact upon the Merged Group's financial position.

Further, there are risks associated with the availability of adequate trucking, rail and port facilities and the process for obtaining approvals to access these facilities (including the timing and conditions on which access may be granted). If the Merged Group is not able to access the required infrastructure within a certain time period or at a reasonable cost, this could adversely affect the Merged Group's operations and financial performance.

The price of sea freight, smelting and refining charges are market driven and can vary throughout the life of each project. These will also impact on the overall profitability of the Merged Group.

p. Key personnel and contractors

A number of key personnel are important to attaining the business goals of IGO and the Merged Group. One or more of these key employees could leave their employment, and this may adversely affect the ability of IGO and the Merged Group to conduct their business and, accordingly, affect the financial performance of IGO and the price of IGO Shares.

Recruiting and retaining qualified personnel are important to the success of the Merged Group. The number of persons skilled in the exploration and development of mining properties is limited and competition for such persons can be strong, depending on market conditions.

Any disputes with employees (through personal injuries, industrial matters or otherwise), change in labour regulations, or other developments in the area may cause labour disputes, work stoppages or other disruptions in production that could adversely impact the Merged Group.

The Merged Group may use external contractors or service providers for many of its activities, and as such the failure of any current or proposed contractors, subcontractors or other service providers to perform their contractual obligations may negatively impact the business of the Merged Group. IGO cannot guarantee that such parties will fulfil their contractual obligations and there is no guarantee that IGO would be successful in enforcing any of its contractual rights through legal action. Further, the insolvency or managerial failure by any such contractors or other service providers may pose a significant risk to IGO's operating and financial performance and financial position.

q. Import and export policies

The import and export policies of any jurisdiction in which the Merged Group operates or sells product to may change in the future. As the revenues of the Merged Group depend upon the process of exporting commodities, the profitability and financial position of IGO may be adversely affected by any such adverse import and export regulations.

9.3 GENERAL RISKS

a. Share market conditions

There are risks associated with any investment in securities. Publicly listed securities and, in particular, securities of mining and exploration companies, have experienced extreme price and volume fluctuations that have often been unrelated to the operating performances of such companies.

The price at which IGO Shares are quoted on the ASX may increase or decrease due to a number of factors. These factors may cause the IGO Shares to trade at prices below the price at the date of the Offer. There is no assurance that the price of the IGO Shares will increase following the Offer, even if IGO's earnings increase.

Some of the factors which may affect the price of IGO Shares include economic conditions in both Australia and internationally, investor sentiment and local and international share market conditions, changes in interest rates and the rate of inflation, variations in commodity prices, the global security situation and the possibility of terrorist disturbances, changes to government regulation, policy or legislation, changes which may occur to the taxation of companies as a result of changes in Australian and foreign taxation laws, changes to the system of dividend imputation in Australia, and changes in exchange rates.

b. Equity dilution

IGO may elect to issue IGO Shares or other securities in IGO in the future. While IGO will be subject to the constraints of the Listing Rules regarding the percentage of capital that it is able to issue within a 12 month period (other than where exceptions apply), the increase in the number of securities issued and the possible sale of these securities may have the effect of depressing the price of IGO securities already on issue. In addition, IGO shareholders at the time may be diluted as a result of the issue of such securities.

c. Economic conditions

The operating and financial performance of the Merged Group will be influenced by a variety of general economic and business conditions, including levels of consumer spending, oil prices, inflation, interest rates and exchange rates, supply and demand, industrial disruption, access to debt and capital markets and government fiscal, monetary and regulatory policies.

Changes in general economic conditions may result from many factors including government policy, international economic conditions, significant acts of terrorism, hostilities or war or natural disasters. A prolonged deterioration in general economic conditions, including an increase in interest rates or a decrease in consumer and business demand, could be expected to have an adverse impact on IGO's operating and financial performance and financial position.

d. Changes in tax rules or their interpretation

Changes in tax law (including value added or indirect taxes and stamp duties), or changes in the way tax laws are interpreted, may impact the Merged Group's tax liabilities or the tax treatment of an IGO shareholder's investment. In particular, both the level and basis of taxation may change. In addition, an investment in IGO Shares involves tax considerations which may differ for each IGO shareholder. Each Panoramic Shareholder is encouraged to seek professional tax advice in connection with the Offer and how they may be discretely impacted.

e. Force majeure events

Events may occur within or outside Australia that could impact upon the Australian economy, the Merged Group's operations and the price of IGO Shares. These events include but are not limited to acts of terrorism, an outbreak of international hostilities, fires, floods, earthquakes, labour strikes, civil wars, natural disasters, outbreaks of disease, uranium concentrate risk or other natural or man-made events or occurrences that can have an adverse effect on the demand for the Merged Group's products and its ability to operate its assets. IGO has only a limited ability to insure against some of these risks.

f. Litigation

As at the date of this Bidder's Statement, IGO is not aware of any material disputes or litigation being undertaken. However, it is possible that the Merged Group may be involved in disputes and litigation in the course of its future operations. There is a risk that any material or costly dispute or litigation and compensation or damages could adversely impact the financial position or performance of the Merged Group.

SECTION 10

TAX CONSIDERATIONS

10.1 Australian resident Panoramic Shareholders

10.2 Foreign resident Panoramic Shareholders

10.3 Foreign resident CGT withholding tax rules

10.4 GST

SECTION 10

TAX CONSIDERATIONS

This section 10 contains a general description of the Australian income tax (including CGT) and GST consequences for Panoramic Shareholders who either accept the Offer and dispose of their Panoramic Shares to IGO, or whose Panoramic Shares are compulsorily acquired in accordance with Part 6A.1 of the Corporations Act.

This section 10 deals only with Panoramic Shareholders who hold their Panoramic Shares on capital account for income tax purposes. It does not deal with Panoramic Shareholders who:

- hold their Panoramic Shares for the purpose of speculation or a business of dealing in securities (eg as trading stock or revenue assets);
- acquired their Panoramic Shares pursuant to an employee share, option or rights plan;
- are taken for CGT purposes to have acquired their Panoramic Shares before 20 September 1985;
- are subject to the taxation of financial arrangement rules in Division 230 of the Tax Act in relation to gains and losses on their Panoramic Shares; or
- are foreign residents of Australia who hold their Panoramic Shares in carrying on a business through a permanent establishment in Australia.

The information in this section 10 is based upon the Australian law and administrative practice in effect as at the date of this Bidder's Statement, but is general in nature and is not intended to be an authoritative or complete statement of the laws applicable to the particular circumstances of a Panoramic Shareholder. Panoramic Shareholders should seek independent professional advice in relation to their own particular circumstances.

Panoramic Shareholders who are tax residents of a country other than Australia (whether or not they are also residents, or are temporary residents, of Australia for tax purposes) should take into account the tax consequences of the Offer under the laws of their country of residence, as well as under Australian law, of acceptance of the Offer.

10.1 AUSTRALIAN RESIDENT PANORAMIC SHAREHOLDERS

a. Panoramic Shareholders who accept the Offer

If the Offer becomes unconditional, acceptance of the Offer by a Panoramic Shareholder will involve the disposal of their Panoramic Shares to IGO. This change of ownership of Panoramic Shares will constitute a CGT event for Australian income tax purposes. The date of disposal for CGT purposes should be the date the contract to dispose of the Panoramic Shares is formed.

b. Compulsory acquisition

If a Panoramic Shareholder does not dispose of their Panoramic Shares under the Offer and their Panoramic Shares are compulsorily acquired in accordance with Part 6A.1 of the Corporations Act, those Panoramic Shareholders will also be treated as having disposed of their Panoramic Shares for CGT purposes.

In this case, the date of the CGT event will be the date when the Panoramic Shareholder ceases to be the owner of the Panoramic Shares.

c. CGT

1. Calculation of capital gain or capital loss (apart from scrip for scrip rollover relief)

Panoramic Shareholders will make a capital gain to the extent that the capital proceeds from the disposal of their Panoramic Shares are more than the cost base of those Panoramic Shares.

Conversely, Panoramic Shareholders will make a capital loss to the extent that the capital proceeds are less than their reduced cost base of those Panoramic Shares.

2. Cost base

The cost base of the Panoramic Shares generally includes the purchase price paid for the shares and certain non-deductible incidental costs of their acquisition and disposal. The reduced cost base of the Panoramic Shares is usually determined in a similar but not identical manner.

3. Capital proceeds

The capital proceeds for the disposal of Panoramic Shares should be equal to the Offer consideration receivable by the Panoramic Shareholder. The capital proceeds should be equal to the market value of the IGO Shares received by the Panoramic Shareholder, determined as at the time of the CGT event.

4. CGT discount

Individuals, complying superannuation entities or trustees of trusts that have held their Panoramic Shares for at least 12 months before the CGT event may be entitled to discount the amount of the capital gain (after application of capital losses) from the disposal of Panoramic Shares by 50% in the case of individuals and trusts or by 33^{1/3}% for complying superannuation entities. For trusts, the ultimate availability of the discount for a beneficiary of the trust will depend on the particular circumstances of the beneficiary.

5. Net capital gains or losses

Capital gains (prior to any CGT discount) and capital losses of a taxpayer in an income year are aggregated to determine whether there is a net capital gain or net capital loss. Any net capital gain is included in assessable income and therefore is potentially subject to income tax.

Net capital losses may not be deducted against other income for income tax purposes, but may be carried forward to offset against future capital gains (subject to satisfaction of loss recoupment tests for certain taxpayers).

6. Scrip for scrip rollover

Scrip for scrip rollover should be available if IGO acquires at least 80% of the Panoramic Shares under the Offer. If, and to the extent that scrip for scrip rollover is available and chosen, then the capital gain that would otherwise arise will be disregarded.

IGO will **not** make a choice under section 124–795(4) of the Tax Act to deny scrip for scrip rollover relief (where it would otherwise be available).

Scrip for scrip rollover relief is not available if a capital loss arises on the exchange of the Panoramic Shares.

If IGO does not obtain 80% or more of the Panoramic Shares under the Offer, no Panoramic Shareholder will be eligible for scrip for scrip rollover relief.

d. Implications of holding IGO Shares

As a consequence of accepting the Offer, a Panoramic Shareholder will become a shareholder of IGO.

Dividends (and any attached franking credits) received by an Australian resident shareholder of IGO would generally be required to be included in the assessable income of such a shareholder.

e. CGT on subsequent disposal of IGO Shares

A subsequent disposal of IGO Shares will generally result in Australian CGT implications as described above. These will differ depending upon whether or not, and the extent to which, scrip for scrip rollover relief was claimed in relation to the disposal of Panoramic Shares pursuant to the Offer.

1. Where scrip for scrip rollover not claimed or available

Where scrip for scrip rollover relief was not claimed or was not available in relation to the disposal of the Panoramic Shares, the cost base of the IGO shares (spread equally over those IGO shares) would include the market value of the Panoramic Shares disposed of in exchange for them. Where the Offer was accepted, this market value should be determined as at the time of the CGT event for disposal of the Panoramic Shares (see section 10.1(a) above). Where the Panoramic Shares were compulsorily acquired, this market value should be determined as at the date the IGO shares were issued.

2. Where scrip for scrip rollover available

Where a Panoramic Shareholder chooses scrip for scrip rollover, the cost base (and reduced cost base) of the IGO shares will reflect proportionally the cost base (and reduced cost base) that the Panoramic Shareholder had in their Panoramic Shares that are disposed of in exchange for the IGO shares.

The cost base and reduced cost base of the IGO shares may subsequently change, for example by any incidental costs to sell the IGO Shares.

A Panoramic Shareholder will be taken to have acquired the IGO shares at the time the Panoramic Shares exchanged for them were originally acquired for CGT purposes.

10.2 FOREIGN RESIDENT PANORAMIC SHAREHOLDERS

For a Panoramic Shareholder who:

- is a foreign resident of Australia for Australian income tax purposes; and
- does not hold their Panoramic Shares in carrying on a business through a permanent establishment in Australia;

their disposal of Panoramic Shares will generally only result in Australian CGT implications if their Panoramic Shares are 'indirect Australian real property interests' under the Tax Act, which requires both of the following conditions to be satisfied:

- that Panoramic Shareholder together with its associates held 10% or more of the Panoramic Shares at the time of disposal or for any continuous 12 month period within two years preceding the disposal (referred to as a 'non-portfolio interest' in Panoramic); and
- more than 50% of Panoramic's value is attributable to direct or indirect interests in 'taxable Australian real property' (as defined in the Tax Act) (**TARP Test**).

IGO expects that the TARP Test is likely to be satisfied for Panoramic.

Foreign resident Panoramic Shareholders who hold (or have held) a non-portfolio interest should obtain independent professional advice as to the tax implications of a disposal of their Panoramic Shares.

A foreign resident Panoramic Shareholder who has previously been a resident of Australia and chose to disregard a capital gain or loss on their Panoramic Shares on ceasing to be a resident should, in broad terms, be subject to Australian CGT consequences on disposal of their Panoramic Shares as set out in section 10.1. However, scrip for scrip rollover may not be available in this case (even where IGO Shares are received) and such shareholders should seek independent professional advice in relation to their particular circumstances.

Note that Panoramic Shareholders who are Foreign Shareholders will not be entitled to receive IGO Shares as consideration for their Panoramic Shares pursuant to the Offer – see section 11.6. Scrip for scrip rollover will not be available for Panoramic Shareholders who do not receive IGO Shares as consideration for their Panoramic Shares pursuant to the Offer (ie if they receive cash).

10.3 FOREIGN RESIDENT CGT WITHHOLDING TAX RULES

Pursuant to the foreign resident CGT withholding tax rules, unless an exemption or variation applies, IGO may be required to pay (in cash) to the Commissioner of Taxation an amount equal to 12.5% of the capital proceeds provided for the acquisition of Panoramic Shares from certain Panoramic Shareholders (ie an amount equal to 12.5% of the market value of the IGO Shares issued to acquire the Panoramic Shares).

The foreign resident CGT withholding tax rules aim to facilitate the collection of CGT from foreign resident sellers and normally would only be expected to apply to the disposal of Panoramic Shares where the Panoramic Shareholder meets the following conditions:

- it is a foreign resident for Australian income tax purposes (but note the comments below);
- it holds (or has held) a non-portfolio interest in Panoramic, as described in section 10.2; and
- Panoramic satisfies the TARP Test, as described in section 10.2.

That is, where the Panoramic Shareholder is a foreign resident for Australian income tax purposes, and their Panoramic Shares are 'indirect Australian real property interests' (as that term is defined in the Tax Act).

A Panoramic Shareholder that does **not** meet the conditions of the foreign resident CGT withholding tax rules described above should provide IGO with a signed and completed declaration (**CGT Declaration**). This includes either of the following:

- Panoramic Shareholders who are Australian residents for tax purposes;
- Panoramic Shareholders who are foreign residents for tax purposes, and whose Panoramic Shares are 'membership interests' but not 'indirect Australian real property interests' (as those terms are defined in the Tax Act).

The CGT Declaration is contained in the Acceptance Form, accompanying this Bidder's Statement.

Where a Panoramic Shareholder has provided a signed and completed CGT Declaration prior to IGO acquiring its Panoramic Shares, IGO will not deduct a foreign resident CGT withholding tax amount (ie a portion of the Offer consideration receivable by the Panoramic Shareholder), unless IGO knows the CGT Declaration is false.

However, IGO may deduct a foreign resident CGT withholding tax amount where it does not receive a signed and completed CGT Declaration prior to IGO acquiring the Panoramic Shares from that Panoramic Shareholder. In this case, IGO may deduct this amount (on account of the foreign resident CGT withholding tax liability to the Commissioner of Taxation), ie a portion of the Offer consideration receivable by the Panoramic Shareholder, where:

- IGO knows the Panoramic Shareholder is a foreign resident for Australian income tax purposes;
- IGO reasonably believes that the Panoramic Shareholder is a foreign resident for Australian income tax

purposes;

- IGO does not reasonably believe that the Panoramic Shareholder is an Australian resident for Australian income tax purposes and either: (i) the Panoramic Shareholder has an address outside Australia (according to any record that is in IGO's possession or is kept or maintained on IGO's behalf about the disposal of Panoramic Shares); or (ii) IGO is authorised to provide a related financial benefit to a place outside Australia; or
- the Panoramic Shareholder has a connection outside Australia of a kind specified in the relevant regulations under the Tax Act.

If IGO reasonably believes that a liability to foreign resident CGT withholding tax will arise, in respect of the disposal of Panoramic Shares by a particular Panoramic Shareholder, then IGO will deduct (withhold) an amount, on account of and to satisfy this liability, from that particular Panoramic Shareholder's Offer consideration. The Panoramic Shareholder will only receive, after deduction of this amount, the net proceeds (including, where applicable, the requisite net number of IGO Shares after an adjustment in respect of deduction on account of this amount to reduce the number of IGO Shares provided), and the deducted amount will be paid by IGO to the Commissioner of Taxation.

A Panoramic Shareholder who believes the disposal of their Panoramic Shares may trigger a foreign resident CGT withholding tax liability should obtain independent professional advice, and consider contacting IGO.

The foreign resident CGT withholding tax is not a final withholding tax. Accordingly, a Panoramic Shareholder should be able to claim a credit for any foreign resident CGT withholding tax amount deducted and remitted by IGO (in respect of the disposal of Panoramic Shares by that Panoramic Shareholder) in their Australian income tax return for the relevant year. In addition, the Panoramic Shareholder may apply to the Commissioner of Taxation prior to the disposal of their Panoramic Shares to vary the rate of withholding down from 12.5%, if the tax liability expected to arise from that disposal is less than 12.5% of the Offer consideration.

10.4 GST

Panoramic Shareholders should not be liable to GST in respect of the disposal of their Panoramic Shares or the acquisition of IGO Shares under the Offer.

Panoramic Shareholders may be charged GST on costs (such as advisor fees relating to their participation in the Offer) that relate to the Offer. Panoramic Shareholders may be entitled to input tax credits or reduced input tax credits for such costs, depending on their particular circumstances.

In addition, as permitted by Corporations Instrument 2016/72, this Bidder's Statement contains trading data sourced from IRESS and FactSet provided without their consent.

11.4 RELIANCE ON ASIC CLASS ORDER 2015/1068

IGO may rely on the provisions of ASIC Corporations (Minimum Bid Price) Instrument 2015/1068 (**Corporations Instrument 2015/1068**). The Corporations Instrument 2015/1068 provides relief from the requirement in section 621(4) of the Corporations Act and allows a bidder up to five business days before the date of the takeover bid to value the quoted securities being offered as consideration under the takeover bid, for the purposes of determining whether the value of its bid consideration at least equals the maximum value of consideration paid by the bidder for bid class securities in the four months prior to the date of the offer.

Relying on that relief, IGO may value the IGO Shares to be provided under the Offer at any date nominated by IGO (**Valuation Date**) up to five Business Days before the date of the Offer. The valuation is determined by calculating the VWAP of the IGO Shares in the ordinary course of trading on ASX during two full days before the Valuation Date.

Under section 621(4A) of the Corporations Act (as inserted into the Corporations Act by the Corporations Instrument 2015/1068) the following information is provided:

- the value of IGO Shares under section 621(4A): \$ [•] per IGO Share;
- the Valuation Date: [•]; and
- the trading days on which the valuation is based: [•] and [•].

The value of the Offer per Panoramic Share for the purpose of section 621 of the Corporations Act using this valuation is therefore \$ [•]

This value exceeds the maximum value of consideration paid by IGO for Panoramic Shares in the four months prior to the date of the Offer.

11.5 IGO'S ORE RESERVES AND MINERAL RESOURCES

The information in this Bidder's Statement relating to IGO's Ore Reserves and Mineral Resources is extracted from the report titled "CY18 Mineral Resource and Ore Reserve Statement" released on ASX on 20 February 2019, for which competent person's consents were obtained. These Mineral Resource and Ore Reserve statements and their accompanying assumptions, technical parameters and explanatory notes are available to be viewed at igo.com.au/site/operations/resources-and-reserves1.

IGO is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources or Ore Reserves, considers that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The form and context in which the competent person's findings are presented have not been materially modified from the original market announcement. The competent person's consents remain in place for subsequent releases by IGO of the same information in the same form and context, until the consent is withdrawn or replaced by a subsequent report and accompanying consent.

11.6 PANORAMIC'S ORE RESERVES AND MINERALS RESOURCES

The information in this Bidder's Statement relating to Panoramic's Ore Reserves and Mineral Resources is extracted from the Panoramic 2019 Annual Report. IGO has not independently verified this information.

11.7 FOREIGN SHAREHOLDERS AND SMALL PARCEL SHAREHOLDERS

Panoramic Shareholders who are Foreign Shareholders or Small Parcel Shareholders will not be entitled to receive IGO Shares as consideration for their Panoramic Shares pursuant to the Offer, unless IGO otherwise determines.

A Panoramic Shareholder is a Foreign Shareholder for the purposes of the Offer if their address as shown in the register of members of Panoramic is in a jurisdiction other than Australia or its external territories, New Zealand or Bermuda. However, such a person will not be a Foreign Shareholder if IGO is satisfied that it is not legally or practically constrained from making the Offer to a Panoramic Shareholder in the relevant jurisdiction and to issue IGO Shares to such a shareholder on acceptance of the Offer, and that it is lawful for the shareholder to accept the Offer in such circumstances in the relevant jurisdiction. Notwithstanding anything else in this Bidder's Statement, IGO is not under any obligation to spend any money, or undertake any action, in order to satisfy itself concerning any of these matters.

A Panoramic Shareholder is a Small Parcel Shareholder if the total number of shares held by it is less than a Small Parcel.

The IGO Shares which would otherwise have been issued to Foreign Shareholders and Small Parcel Shareholders will instead be issued to a nominee approved by ASIC, who will sell these shares. The net proceeds of the sale of such shares will then be remitted to the relevant Foreign Shareholders and Small Parcel Shareholders. See section 12.7 for further details.

11.8 SOCIAL SECURITY AND SUPERANNUATION IMPLICATIONS OF OFFER

Acceptance of the Offer may have implications under your superannuation arrangements or on your social security entitlements. If in any doubt, you should seek specialist advice.

The persons named in this Bidder's Statement as performing a function in a professional or advisory capacity in connection with the Offer and with the preparation of the Bidder's Statement on behalf of IGO are Citigroup Global Markets Australia Pty Limited as financial adviser and Herbert Smith Freehills as legal adviser.

The fee for professional services paid or payable to Citigroup Global Markets Australia Pty Limited as financial adviser to IGO is up to \$4.9 million. The fee for professional services paid or payable to Herbert Smith Freehills as legal adviser to date is approximately \$210,000.

- a. Subject to section 12.4(b), this section 12.6 and section 12.7 and the Corporations Act, IGO will provide the consideration due to you for Your Shares on or before the earlier of:

 2. 21 days after the end of the Offer Period.
- b. Where the Acceptance Form requires an additional document to be delivered with your Acceptance Form (such as a power of attorney):

condition, IGO will provide the consideration within 21 days after that document is given. However, if at the time the document is given, the Offer is still subject to a defeating condition that relates only to the happening of an event or circumstance referred to in section 652C(1) or (2) of the Corporations Act, IGO will provide the consideration due to you within 21 days after the Offer becomes unconditional.

- c. If you accept this Offer, IGO is entitled to all Rights in respect of Your Shares. IGO may require you to provide all documents necessary to vest title to those Rights in IGO, or otherwise to give it the benefit or value of those Rights. If you do not give those documents to IGO, or if you have (or any previous owner of Your Shares has) received the benefit of those Rights, IGO will deduct from the consideration otherwise due to you the amount (or value, as reasonably assessed by IGO) of those Rights. However, no amount will be deducted in respect of the franking credits (if any) attached to the Rights.
- d. If you have accepted the Offer and you are a Foreign Shareholder or a Small Parcel Shareholder, you will receive your share of the proceeds from the sale of the IGO Shares in accordance with section 12.7.
- e. Payment of any cash amount to which you are entitled under the Offer will be made by cheque in Australian currency. Cheques will be posted to you at your risk by ordinary mail (or in the case of overseas shareholders, by airmail) to the address as shown either, at the discretion of IGO, on your Acceptance Form, or on the register copy supplied by Panoramic from time to time.
- f. The obligation of IGO to issue and allot any IGO Shares to which you are entitled will be satisfied by IGO:
 - 1. entering your name on the register of members of IGO; and
 - 2. dispatching or procuring the dispatch to you by pre paid post to your address recorded in Panoramic's register of members last notified to IGO, an uncertificated holding statement in your name. If Your Shares are held in a joint name, an uncertificated holding statement will be issued in the name of, and forwarded to, the holder whose name appears first in Panoramic's register of members last notified to IGO.
- g. If at the time you accept the Offer, any authority, clearance or approval is required for you to receive any consideration for Your Shares, including (but not limited to) any authority, clearance or approval of:
 - 1. the Reserve Bank of Australia (whether under the *Banking (Foreign) Exchange Regulations 1959* (Cth) or otherwise);
 - 2. the Minister for Foreign Affairs (whether under the Charter of the United Nations Act 1945 (Cth), the Charter of the United Nations (Dealing with Assets) Regulations 2008 (Cth) or any other regulations made thereunder), or otherwise;
 - 3. the Commissioner of Taxation; or
 - 4. any other person as required by any other law of Australia that would make it unlawful for IGO to provide any consideration for Your Shares,

then you will not be entitled to receive any consideration for Your Shares until all requisite authorities, clearances or approvals have been received by IGO.

- h. If IGO determines, acting reasonably and in good faith that it is liable to pay an amount to the Commissioner of Taxation pursuant to Subdivision 14-D of Schedule 1 to the Taxation Administration Act 1953 (Cth) (**TAA**) with respect to the acquisition of Panoramic Shares from a Panoramic Shareholder, IGO will, for any such Panoramic Shareholder:
 - 1. determine the amount required to be paid to the Commissioner of Taxation (**Payment Amount**);
 - 2. remit the Payment Amount to the Commissioner of Taxation within the time required under the TAA; and
 - 3. after deduction of the Payment Amount, provide the net proceeds (including, where applicable, the requisite net number of IGO Shares after an adjustment in respect of deduction on account of the Payment Amount to reduce the number of IGO Shares provided), to that Panoramic Shareholder for the purposes of this Offer.

For the avoidance of doubt, where the conditions in this section 12.6(h) are satisfied, IGO will, for the purposes of this Offer, be deemed to have satisfied its obligations to provide the Offer consideration to a Panoramic Shareholder if the amount or value of the net proceeds provided to the Panoramic Shareholder are equal to the amount or value of the Offer consideration that would have otherwise been provided to the Panoramic Shareholder pursuant to the Offer, less the Payment Amount for that Panoramic Shareholder.

12.7 FOREIGN SHAREHOLDERS AND SMALL PARCEL SHAREHOLDERS

- a. If you are a Foreign Shareholder or a Small Parcel Shareholder, you will not be entitled to receive IGO Shares as the consideration for Your Shares as a result of accepting this Offer, and IGO will:
1. arrange for the issue to a nominee approved by ASIC (the Nominee) of the number of IGO Shares to which you and all other Foreign Shareholders and Small Parcel Shareholders would have otherwise been entitled but for section 12.1(c) and the equivalent provision in each other offer under the Offer;
 2. cause the IGO Shares so issued to be offered for sale by the Nominee on ASX as soon as practicable and otherwise in the manner, at the price and on such other terms and conditions as are determined by the Nominee (at the risk of the Foreign Shareholders and Small Parcel Shareholders); and
 3. cause the Nominee to pay to you the amount ascertained in accordance with the formula (for the avoidance of doubt, subject to adjustment under section 12.6(h), if applicable):

$$\frac{N \times YS}{TS}$$

where:

'N' is the amount which is received by the Nominee upon the sale of all IGO Shares under this section 12.7 less brokerage and sale expenses;

'YS' is the number of IGO Shares which would, but for section 12.1(c), otherwise have been allotted to you; and

'TS' is the total number of IGO Shares allotted to the Nominee under this section 12.7.

- b. You will receive your share of the proceeds of the sale of IGO Shares by the Nominee, calculated in accordance with section 12.7(a), in Australian currency.
- c. Payment will be made by cheque posted to you at your risk by ordinary mail (or in the case of overseas shareholders, by airmail) at the address provided on your Acceptance Form within the period required by the Corporations Act.
- d. Under no circumstances will interest be paid on your share of the proceeds of the sale of IGO Shares by the Nominee, regardless of any delay in remitting these proceeds to you.
- e. The Nominee may sell the IGO Shares in such manner, at such price or prices and on such terms as the Nominee determines, and at the risk of the Foreign Shareholders and Small Parcel Shareholders. The Nominee will sell the IGO Shares on ASX following the issue of those shares to it.
- f. As the market price of IGO Shares will be subject to change from time to time, the sale price of the IGO Shares sold by the Nominee and the proceeds of those sales cannot be guaranteed. Neither IGO nor the Nominee gives any assurance as to the price that will be achieved for the sale of the IGO Shares by the Nominee.
- g. The Nominee will be appointed by, and will provide the Nominee services to, IGO. In acting as Nominee, the Nominee will not be acting as agent or sub-agent of any Foreign Shareholder or Small Parcel Shareholder, does not have duties or obligations (fiduciary or otherwise) to any Foreign Shareholder or Small Parcel Shareholder and does not underwrite the sale of the IGO Shares.

Dear Directors

INDEPENDENT LIMITED ASSURANCE REPORT

1. Introduction

BDO Corporate Finance (WA) Pty Ltd (**'BDO'**) has been engaged by Independence Group NL (**'IGO'** or **'the Company'**) to prepare this Independent Limited Assurance Report (**'Report'**) in relation to certain financial information of IGO contained in the Bidder's Statement for Panoramic Resources Limited (**'Panoramic'**).

Expressions defined in the Bidder's Statement have the same meaning in this Report. BDO Corporate Finance (WA) Pty Ltd (**'BDO'**) holds an Australian Financial Services Licence (AFS Licence Number 316158).

This Report has been prepared for inclusion in the Bidder's Statement. We disclaim any assumption of responsibility for any reliance on this Report or on the Financial Information to which it relates for any purpose other than that for which it was prepared.

2. Scope

You have requested BDO to perform a limited assurance engagement in relation to the historical and pro forma historical financial information described below and disclosed in the Bidder's Statement.

The historical and pro forma historical financial information is presented in the Bidder's Statement in an abbreviated form, insofar as it does not include all of the presentation and disclosures required by Australian Accounting Standards and other mandatory professional reporting requirements applicable to general purpose financial reports prepared in accordance with the Corporations Act 2001.

You have requested BDO to review the following historical financial information (together the ‘**Historical Financial Information**’) of IGO and included in the Bidder’s Statement:

- the audited historical Statement of Financial Position as at 30 June 2019 of Panoramic and IGO.

The Historical Financial Information has been prepared in accordance with the stated basis of preparation, being the recognition and measurement principles contained in Australian Accounting Standards and the respective companies adopted accounting policies. The Historical Financial Information has been extracted from the financial reports of IGO and Panoramic for the year ended 30 June 2019. IGO was audited by BDO Audit (WA) Pty Ltd in accordance with the Australian Auditing Standards. BDO Audit (WA) Pty Ltd issued an unmodified audit opinion on the financial report. Panoramic was audited by Ernst & Young in accordance with the Australian Auditing Standards. Ernst and Young issued an unmodified audit opinion on the financial report but noted an emphasis of matter. The emphasis of matter raised by Ernst & Young related to a material uncertainty regarding Panoramic’s ability to continue as a going concern due to negotiations regarding Panoramic’s loan facility that were underway at the time. Since that time Panoramic has successfully renegotiated the terms of the loan facility.

Pro Forma Historical Financial Information

You have requested BDO to review the following pro forma historical financial information (the ‘**Pro Forma Historical Financial Information**’) of IGO included in the Bidder’s Statement:

- the pro forma historical Statement of Financial Position as at 30 June 2019.

The Pro Forma Historical Financial Information has been derived from the historical financial information of IGO, after adjusting for the effects of the subsequent events described in Section 6 of this Report and the pro forma adjustments described in Section 8.4 of the Bidder’s Statement. The stated basis of preparation is the recognition and measurement principles contained in Australian Accounting Standards applied to the historical financial information and the event(s) or transaction(s) to which the pro forma adjustments relate, as described in Section 8.4 of the Bidder’s Statement, as if those events or transactions had occurred as at the date of the historical financial information. Due to its nature, the Pro Forma Historical Financial Information does not represent the company’s actual or prospective financial position or financial performance.

The Pro Forma Historical Financial Information has been compiled by IGO to illustrate the impact of the events or transactions described in Section 8.4 of the Bidder’s Statement. As part of this process, information about IGO and Panoramic’s financial position has been extracted by IGO from IGO and Panoramic’s financial statements for the year ended 30 June 2019.

3. Directors’ responsibility

The directors of IGO are responsible for the preparation and presentation of the Historical Financial Information and Pro Forma Historical Financial Information, including the selection and determination of pro forma adjustments made to the Historical Financial Information and included in the Pro Forma Historical Financial Information. This includes responsibility for such internal controls as the directors determine are necessary to enable the preparation of Historical Financial Information and Pro Forma Historical Financial Information are free from material misstatement, whether due to fraud or error.

4. Our responsibility

Our responsibility is to express limited assurance conclusions on the Historical Financial Information and the Pro Forma Historical Financial Information. We have conducted our engagement in accordance with the Standard on Assurance Engagement ASAE 3450 *Assurance Engagements involving Corporate Fundraisings and/or Prospective Financial Information*.

Our limited assurance procedures consisted of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A limited assurance engagement is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain reasonable assurance that we would become aware of all significant matters that might be identified in a reasonable assurance engagement. Accordingly, we do not express an audit opinion.

Our engagement did not involve updating or re-issuing any previously issued audit or limited assurance reports on any financial information used as a source of the financial information.

5. Conclusion

Historical Financial Information

Based on our limited assurance engagement, which is not an audit, nothing has come to our attention that causes us to believe that the Historical Financial Information, as described in Bidder's Statement, and comprising:

- the Statement of Financial Position of IGO and Panoramic as at 30 June 2019,

is not presented fairly, in all material respects, in accordance with the stated basis of preparation, as described in Section 2 of this Report.

Pro Forma Historical Financial information

Based on our limited assurance engagement, which is not an audit, nothing has come to our attention that causes us to believe that the Pro Forma Historical Financial Information as described in the Appendices to this Report, and comprising:

- the pro forma historical Statement of Financial Position of IGO as at 30 June 2019,

is not presented fairly, in all material respects, in accordance with the stated basis of preparation, as described in Section 8.4 of the Bidder's Statement.

6. Independence

BDO is a member of BDO International Ltd. BDO does not have any interest in the outcome of the Offer other than in connection with the preparation of this Report and participation in due diligence procedures, for which professional fees will be received. BDO is the auditor of IGO and from time to time, BDO also provides IGO with certain other professional services for which normal professional fees are received.

7. Disclosures

This Report has been prepared, and included in the Bidder's Statement, to provide investors with general information only and does not take into account the objectives, financial situation or needs of any specific investor. It is not intended to be a substitute for professional advice and

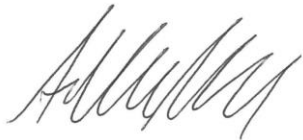

potential investors should not make specific investment decisions in reliance on the information contained in this Report. Before acting or relying on any information, potential investors should consider whether it is appropriate for their objectives, financial situation or needs.

Without modifying our conclusions, we draw attention to Section 8.4 of the Bidder's Statement, which describes the purpose of the financial information, being for inclusion in the Bidder's Statement. As a result, the financial information may not be suitable for use for another purpose.

BDO has consented to the inclusion of this Report in the Bidder's Statement in the form and context in which it is included. At the date of this Report this consent has not been withdrawn. However, BDO has not authorised the issue of the Bidder's Statement. Accordingly, BDO makes no representation regarding, and takes no responsibility for, any other statements or material in or omissions from the Bidder's Statement.

Yours faithfully

Takeover Acceptance Form

CHES

Your form must be received with sufficient time to allow processing prior to the end of the Offer Period.

This form and the Bidder's Statement are important documents that require your immediate attention. This form relates to an offer ("Offer") by Independence Group NL ABN 46 092 786 304 ("IGO") to acquire all of your shares in Panoramic Resources Limited (ABN 47 095 792 288) ("Panoramic") the terms of which are set out in the Bidder's Statement dated 4 November 2019 as replaced or supplemented (the "Bidder's Statement").

Capitalised terms used in this form have the same meaning as in the Bidder's Statement, unless otherwise defined.

If you are in doubt about how to deal with this Offer, please contact your financial or other professional advisor.

Note this form can only be used in relation to the securityholding represented by the details printed above and overleaf.

Step 1: Registration Name & Offer Details

Your consideration will be issued to the name(s) as they appear on the latest copy of the Panoramic register, as provided to IGO.

The current address recorded by IGO is printed above and overleaf. If you have recently bought or sold Panoramic Shares your holding may differ from that shown. If you have already sold all your Panoramic Shares, do not complete or return this form.

Step 2: Accept the Offer

Only sign and return this form if you wish to accept the Offer for ALL of your Panoramic Shares.

As your Panoramic Shares are in a CHES holding, you may contact your Controlling Participant directly (normally your stockbroker) with instructions to accept the Offer. If you do this, your Controlling Participant will provide you with details as to what they require in order to accept the Offer on your behalf. If you want IGO to contact your Controlling Participant on your behalf, sign and return this form to the address above so that it is received in sufficient time to allow your instruction to be acted upon by the close of the Offer Period. This will authorise IGO and Computershare Investor Services Pty Limited ("CIS") to request your Controlling Participant to initiate acceptance of the Offer on your behalf.

By signing this form, you warrant to IGO (and authorise IGO to warrant on your behalf) that you have full legal and beneficial ownership of the Panoramic Shares to which this form relates and that IGO will acquire them free from all mortgages, charges, liens, encumbrances (whether legal or equitable), restrictions on transfer of any kind and free from any third party rights.

You should allow sufficient time for your Controlling Participant or IGO to initiate the acceptance of IGO's Offer on your behalf. Neither IGO or CIS will be responsible for any delays incurred by the process of requesting your Controlling Participant to accept the Offer.

Step 3: Non-Withholding Declaration

Please mark the box if you declare that either:

- you are an Australian tax resident; or
- you are not Australian tax resident and the Panoramic Shares that you, together with your 'associates', hold are 'membership interests' but not 'indirect Australian real property interests' (as those terms are defined in the Tax Act).

If you do not mark the box, IGO may withhold 12.5% of the Offer consideration otherwise payable to you. Please refer to Section 10.3 of the Bidder's Statement for further details before completing the below section.

Penalties apply to the making of a false declaration.

Step 4: Signing Instructions

Individual: Where the holding is in one name, the securityholder must sign.

Joint Holding: Where the holding is in more than one name, all of the securityholders must sign.

Power of Attorney: Where signing as Power of Attorney ("POA"), you must attach an original certified copy of the POA to this form.

Companies: Where the holding is in the name of a company, this form must be signed in accordance with the Corporations Act, either as:

- a sole director and sole company secretary **OR** a sole director (if no company secretary exists), **OR**
- two directors, **OR**

Overseas Companies: Where the holding is in the name of an overseas company (companies incorporated outside Australia) the form must be signed as above, or documentation must be provided showing that the company can sign in an alternate manner.

Deceased Estate: All executors must sign and a certified copy of Probate or Letters of Administration must accompany this form.

Entering contact details is not compulsory, but will assist us if we need to contact you.
